

MinneAg 2023 Farm Bill Priorities

MinneAg is a network of community-rooted farm and food systems organizations in Minnesota that prioritize agricultural practices that nourish people and planet. We champion nonpartisan policy solutions that protect communities, farmers, and climate, fostering economic resiliency for all Minnesotans.

MinneAg supports Farm Bill policies and programs that:

Increase financial and capacity investments in infrastructure, small and mid-size processing & market development state-wide.

Enable Land Access & Farm Viability for Emerging Farmers

Leverage Minnesota agriculture to create positive climate & ecosystem impact

Link Nutrition and Food Access Needs to Minnesota Agricultural Producers

The MinneAg Network is housed at the Institute for Agriculture and Trade Policy, and represents a collaboration of organizations.

Find more details on these priorities and join our network on our website **MinneAg.org!**
