TITLE ON TRADE IN GOODS

Chapter X

National Treatment and Market Access for Goods

ARTICLE 3: DEFINITIONS

For purposes of this Chapter [EC: the following definitions apply:]

Agricultural good: [means] A product listed in Annex 1 of the WTO Agreement on Agriculture with any subsequent changes agreed in the WTO to be automatically effective for this Agreement;

Customs duty: [means] Any duty or charge of any kind imposed on or in connection with the importation of a good, including any form of surtax or surcharge imposed on or in connection with such importation [EC: It] [CN:, but] does not include any:

- (a) charge equivalent to an internal tax imposed consistently with Article [4 (National Treatment)] of this Agreement;
- (b) duty imposed pursuant to a Party's domestic law consistently with Chapter ... [Trade Remedies]
- (c) measure applied consistently with the provisions of Article VI or Article XIX of the GATT 1994, the WTO Agreement on Implementation of Article VI of the GATT 1994, the WTO Agreement on Subsidies and Countervailing Measures, the WTO Agreement on Safeguards, and Article 22 of the Dispute Settlement Understanding.

(d) fee or other charge imposed consistently with Article VIII of GATT;

LIMITED

in Article III of the GATT 1994, are incorporated into and made part of this Agreement.

2. The provisions of paragraph 1 mean, with respect to a measure taken by a government in Canada other than at the federal level or by a government of or in a European Union Member State, treatment no less favourable than that accorded by that government to like, directly competitive or substitutable goods, as the case may be, of Canada or the Member State respectively.

3. This Article does not apply to a measure, including that measure's continuation, prompt renewal or amendment, in respect of Canadian excise duties on absolute alcohol, as listed under tariff item 2207.10.90 in Canada's Schedule of Concessions annexed to the Marrakesh Protocol (Schedule V), used in manufacturing under the existing provisions of the *Excise Act, 2001, 2002, c.22*, as amended.

ARTICLE 5: REDUCTION AND ELIMINATION OF CUSTOMS DUTIES ON IMPORTS

1. Each Party shall reduce or eliminate customs duties on goods originating in either Party in accordance with Annex X-5 and the Schedules set out therein (hereinafter referred to as "the Schedules"). For the purposes of this Chapter, "originating" means originating in either Party under the rules of origin set out in Chapter X (Rules of Origin and Origin Procedures).

2. For each good, the base rate of customs duties, to which the successive reductions are to be applied under paragraph 1, shall be that specified in Annex X-5.

3. For goods that are subject to tariff preferences as listed in a Party's Schedule, each Party shall apply to originating goods of the other Party the lesser of the customs duties resulting from a comparison between the rate calculated in accordance with that Party's Schedule and its applied Most Favoured Nation (MFN) rate.

4. On the request of either Party, the Parties may consult to consider accelerating and broadening the scope of the elimination of customs duties on imports between the Parties. A decision by the Parties in the CETA Joint Committee on the acceleration or elimination of a customs duty on a good shall supersede any duty rate or staging category determined pursuant to their Schedules for that good when approved by each Party in accordance with its applicable legal procedures.

ARTICLE 6: RESTRICTION ON DUTYDRAWBACK, DUTY DEFERRAL AND DUTY SUSPENSION PROGRAMS

1. Subject to paragraph 2, a Party may not refund, defer or suspend a customs duty paid or payable on a good that is non-originating imported into its territory on the express condition that the good, or an identical, equivalent or similar substitute, is used as a material in the production of another good that is subsequently exported to the territory of the other Party under preferential tariff treatment pursuant to this Agreement.

LIMITED

LIMITED

Trade in Goods text

Final 1 August 2014

2. Paragraph 1 does not apply to a Party's regime of tariff reduction, suspension or remission, either permanent or temporary, where the reduction, suspension or remission is not expressly conditioned on the exportation of a product.

3. Paragraph 1 does not apply until 3 years after the date of entry into force of this Agreement.

ARTICLE 7: DUTIES, TAXES OR OTHER FEES AND CHARGES ON EXPORTS

Neither Party may maintain or institute any duties, taxes or other fees and charges imposed on, or in connection with, the exportation of goods to the other Party, or any internal taxes or fees and charges on goods exported to the other Party, that are in excess of those that would be imposed on those goods when destined for internal sale.

ARTICLE 8: STANDSTILL

1. Upon the entry into force of this Agreement neither Party may increase any customs duty existing at entry into force, or adopt any new customs duty, on a good originating in the Parties.

2. Notwithstanding this provision, a Party may:

- (a) modify a tariff outside this Agreement on a good for which no tariff preference is claimed under this Agreement;
- (b) increase a customs duty to the level established in its Schedule following a unilateral reduction; or
- (c) maintain or increase a customs duty as authorized by this Agreement or any agreement under the WTO Agreement.

3. Notwithstanding paragraphs 1 and 2, only Canada may apply a special safeguard under Article 5 of the WTO Agreement on Agriculture. A special safeguard may only be applied with respect to goods classified in items with the notation "SSG" in Canada's Schedule to this Agreement. The use of this special safeguard is therefore limited to imports not subject to tariff preference and, in the case of imports subject to a tariff rate quota, to imports over the access commitment.

Kommentiert [A1]: CDA & EU have agreed to review the language during legal scrub.

ARTICLE 9: TEMPORARY SUSPENSION OF PREFERENTIAL TARIFF TREATMENT

ARTICLE 11: GOODS RE-ENTERED AFTER REPAIR OR ALTERATION

1. For the purposes of this Article, repair or alteration means any processing operation undertaken on goods to remedy operating defects or material damage and entailing the re-establishment of goods to their original function or to ensure their compliance with technical requirements for their use, without which the goods could no longer be used in the normal way for the purposes for which it was intended. Repair or alteration of goods includes restoration and maintenance but does not include an operation or process that either:

 - (b) transforms an unfinished good into a finished good; or
 - (c) is used to substantially change the function of a good.
2. Except as otherwise provided, a Party shall not apply a customs duty to a good, regardless of its origin, that re-enters its territory after that good has been temporarily exported from its territory to the territory of the other Party for repair or alteration, regardless of whether such repair or alteration could be performed in the territory of the Party from which the good was exported for repair or alteration.¹

¹ For the following goods of HS Chapter 89, regardless of their origin, that re-enter the territory of Canada from the territory of the European Union, and are registered under the *Canada Shipping Act*, Canada may apply to the value of repair or alteration of such goods, the rate of customs duty for such goods in accordance with its Schedule to Annex X.5 (Tariff Elimination): 8901.10.00, 8901.30.00, 8901.90.10, 8901.90.90, 8904.00.00, 8905.20.10, 8905.20.20, 8905.90.10, 8905.90.90, 8906.90.19, 8906.90.90

4. This Article does not apply to a measure, including that measure's continuation, prompt renewal or amendment, in respect of the following:

20. Underfill mechanism

With respect to the tariff rate quotas set out in [paragraphs 13, 14, 16, 17 and 18]:

(i) If there were to be under-fill of a tariff rate quota, defined as less than 75% physical imports under the tariff rate quota in a given year, the Parties shall meet, under the request of any of the Parties, in the framework of the Sub-Committee on Agriculture established under Article X of Chapter Y in order to address early the underlying causes of the under-fill or any other question affecting the smooth operation of the tariff rate quota.

(ii) If there were to be under-fill of a tariff rate quota, defined as less than 75% utilisation in a given year for 3 consecutive years, and where such under-fill is not linked to scarce supply or demand of the relevant product, the administration of the quota for the following year(s) would be made on a First-Come-First-Served basis. To demonstrate scarce supply/demand, a Party must clearly demonstrate on a quantifiable basis that either adequate supply to fill the tariff rate quota is not available in the country of export or that the tariff rate quota quantity could not be consumed in the importing market. Were Parties to disagree on the reasons leading to under-fill, the matter shall be subject to binding arbitration at the request of any of the Parties.

(iii) If subsequently there were to be full use of the tariff rate quota, defined as 90% or more utilisation for 2 consecutive years, Parties may consider returning to a licencing system following consultations with the other Party on the necessity and opportunity of such reversion and on the features of such licence system.

(i) With respect to the tariff rate quotas set out in [paragraphs 13, 14, 16, 17 and 18], both at the mid-term and at the end of the phase-in period of any of these tariff rate quotas, or at any other time upon motivated request of any of the Parties, the Parties will review the operation of the relevant tariff rate quota administration system in light notably of its effectiveness in ensuring quota utilisation, market conditions, and administrative burden associated with the system for the economic operators and for the Parties.

(ii) With respect to the tariff rate quotas included in [paragraphs 17 and 18], this review will also include the allocation method allowing for new entrants.

(iii) With respect to the tariff rate quotas included in [paragraphs 13, 14 and 16], the review referred to above shall include the consequences of any tariff rate quota administration modalities agreed with a third party for the same products in the framework of other trade negotiations involving the Parties and would include the possibility of providing the option to the exporting Party of transitioning to the approach agreed to in another agreement. The conditions of competition in North America will be a necessary part of the review.

 - (a) has been wholly obtained within the meaning of Article 4;
 - (b) has been produced exclusively from originating materials; or,
 - (c) has undergone sufficient production within the meaning of Article 5.
2. Except as provided for in paragraphs 8 and 9 of Article 3 (Cumulation of Origin), the conditions set out in this Protocol relating to the acquisition of originating status must be fulfilled without interruption in the territory of one or both of the Parties.

CUMULATION OF ORIGIN

1. A product that originates in a Party is considered originating in the other Party when used as a material in the production of a product there.
2. An exporter may take into account production carried out on a non-originating material in the other Party for the purposes of determining the originating status of a product.
3. Paragraphs 1 and 2 do not apply if the production carried out on a product does not go beyond the operations referred to in Article 7 (Insufficient Production) and the object

ARTICLE 8

UNIT OF CLASSIFICATION

For the purposes of this Protocol:

- (a) the tariff classification of a particular product or material shall be determined according to the Harmonized System;

LIMITED

LIMITED

RoO

Final 1 August 2014

- (b) where a product composed of a group or assembly of articles or components is classified pursuant to the terms of the Harmonized System under a single heading or subheading, the whole shall constitute the particular product; and
- (c) where a shipment consists of a number of identical products classified under the same heading or subheading of the Harmonized System, each product shall be considered separately.

ARTICLE 9

PACKAGING AND PACKING MATERIALS AND CONTAINERS

1. Where, under General Rule 5 of the Harmonized System, packaging is included with the product for classification purposes, it is considered in determining whether all the non-originating materials used in the production of the product satisfy the requirements set out in Annex 1 (Product-Specific Rules of Origin).
2. Packing materials and containers in which a product is packed for shipment shall be disregarded in determining the origin of that product.

ARTICLE 10

ACCOUNTING SEGREGATION OF FUNGIBLE MATERIALS OR PRODUCTS

1. a) If originating and non-originating fungible materials are used in the production of a product, the determination of the origin of the fungible materials need not be made through physical separation and identification of any specific fungible material, but may be determined on the basis of an inventory management system.
b) If originating and non-originating fungible products of Chapters 10, 15, 27, 28, 29, headings 32.01 through 32.07 or 39.01 through 39.14 of the Harmonized System are physically combined or mixed in inventory in a Party before exportation to the other Party, the determination of the origin of the fungible products need not be made through physical separation and identification of any specific fungible product, but may be determined on the basis of an inventory management system.
2. The inventory management system must:
 - (i) ensure that, at any time, no more products receive originating status than would have been the case if the fungible materials or fungible products had been physically segregated;
 - (ii) specify the quantity of originating and non-originating materials or products, including the dates on which those materials or products were placed in inventory and if required by the applicable rule of origin, the value of those materials or products;
 - (iii) specify the quantity of products produced using fungible materials, or the quantity of fungible products, that are supplied to customers requiring evidence of

LIMITED

LIMITED

RoO

origin in a Party for the purposes of obtaining preferential treatment under this Agreement and to customers not requiring such evidence; and

(iv) indicate whether an inventory of originating products was available in sufficient quantity to support the declaration of originating status.

3. A Party may require that an exporter or producer within its territory that is seeking to use an inventory management system pursuant to this Article obtain prior authorisation from that Party in order to use that system. The authorisation to use an inventory management system may be withdrawn if the exporter or producer makes improper use of it.
4. For the purposes of paragraph 1, fungible materials or fungible products means materials or products that are of the same kind and commercial quality, with the same technical and physical characteristics, and which cannot be distinguished from one another for origin purposes.

ARTICLE 11

ACCESSORIES, SPARE PARTS AND TOOLS

Accessories, spare parts and tools delivered with a product that form part of its standard accessories, spare parts or tools, that are not invoiced separately from the product and which quantities and value are customary for the product, shall be:

- (a) taken into account in calculating the value of the relevant non-originating materials when the rule of origin of Annex 1 (Product-Specific Rules of Origin) applicable to the product contains a percentage for the maximum value of non-originating materials; and
- (b) disregarded in determining whether all the non-originating materials used in the production of the product undergo the applicable change in tariff classification or other requirements set out in Annex 1 (Product-Specific Rules of Origin).

ARTICLE 12

SETS

1. Except as provided in Annex 1 (Product-Specific Rules of Origin), a set, as referred to in General Rule 3 of the Harmonized System, is originating, provided that:
 - (a) all of the set's component products are originating; or
 - (b) if the set contains a non-originating component product, at least one of the component products, or all of the packaging material and containers for the set, is originating; and
 - i. the value of the non-originating component products of Chapters 1 through 24 of the Harmonized System does not exceed 15 per cent of the transaction value or ex-works price of the set;

LIMITED

LIMITED

RoO

Final 1 August 2014

- ii. the value of the non-originating component products of Chapters 25 through 97 of the Harmonized System does not exceed 25 per cent of the transaction value or ex-works price of the set; and
 - iii. the value of all of the set's non-originating component products does not exceed 25 per cent of the transaction value or ex-works price of the set.
2. The value of non-originating component products is calculated in the same manner as the value of non-originating materials.
3. The transaction value or ex-works price of the set shall be calculated in the same manner as the transaction value or ex-works price of the product.

ARTICLE 13

NEUTRAL ELEMENTS

In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its production:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools;
- (d) materials which do not enter and which are not intended to enter into the final composition of the product.

ARTICLE 14

TRANSPORT THROUGH A NON-PARTY

1. A product shall not be considered to be originating by reason of having undergone production that satisfies the requirements of Article 2 if, subsequent to that production, the product:
 - (a) undergoes further production or any other operation outside the territories of the Parties, other than unloading, reloading, or any other operation necessary to preserve it in good condition, to transport the product to the territory of a Party; or
 - (b) does not remain under customs control while outside the territories of the Parties.
2. The storage of products and shipments or the splitting of shipments may take place where carried out under the responsibility of the exporter or of a subsequent holder of the products and the products remain under customs supervision in the country or countries of transit.

ARTICLE 15

RETURNED ORIGINATING GOODS

If originating products exported from a Party to a non-Party return, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that the returning products:

- (a) are the same as those exported; and
- (b) have not undergone any operation beyond that necessary to preserve them in good condition.

ARTICLE 16

SUGAR

1. Where a rule of origin requires that the net weight of non-originating sugar used in production not exceed a specified threshold, the product will have satisfied this condition if the total net weight of all mono-saccharides and di-saccharides contained in the product, or in the materials used in production, does not exceed this threshold.
2. The product may also satisfy this condition if the threshold is not exceeded by the net weight of non-originating sugar classified in heading 17.01 or subheading 1702.30 through 1702.60 or 1702.90 other than malto-dextrin, chemically pure maltose, or “colouring” caramel as described in the explanatory notes to heading 17.02, when used as such in the production of:
 - a) the product; and
 - b) the non-originating sugar-containing materials classified in subheadings 1302.20, 1704.90, 1806.10, 1806.20, 1901.90, 2101.12, 2101.20, 2106.90 and 3302.10 that are used as such in the production of the product. Alternatively, the net weight of all mono-saccharides and di-saccharides contained in any of these sugar-containing materials may also be used. If neither the net weight of the non-originating sugar as referred to above nor the net weight of mono-saccharides and di-saccharides contained in these sugar-containing materials is known, the total net weight of these materials used as such in production will apply.
3. The net weight of any non-originating sugar as referred to in paragraph 2 may be calculated on a dry weight basis.
4. For the purposes of the rules of origin for heading 17.04 and 18.06, the value of non-originating sugar refers to the value of the non-originating material referred to in paragraph 2 that is used in production of the product.

A Party shall give positive consideration to a reasonable request from the other Party, received prior to the end of the comment period following the transmission of a proposed technical regulation, to establish or extend the period of time between the adoption of the technical regulation and the day upon which it is applicable, except where such delay would be ineffective in fulfilling the legitimate objectives pursued.

7. SANITARY AND PHYTOSANITARY MEASURES (SPS)

CHAPTER [XX]

SANITARY AND PHYTOSANITARY MEASURES

Article 1

Recognition and Termination of the Veterinary Agreement

The Parties recognise the achievements that have been accomplished under the Agreement between the European Community and the Government of Canada on sanitary measures to protect public and animal health in respect of trade in live animals and animal products and confirm their intention to continue this work under the CETA. The Agreement done at Ottawa on 17 December 1998, as amended, is terminated from the date of entry into force of this Agreement.

Article 2

Objectives

The objectives of this Chapter are to:

- a) protect human, animal and plant life or health while facilitating trade ;
- b) ensure that the Parties' sanitary and phytosanitary (SPS) measures do not create unjustified barriers to trade ;
- c) further the implementation of the WTO Agreement on the Application of Sanitary and Phytosanitary Measures (WTO SPS Agreement).

Article 3

Definitions

WTO SPS Agreement means the WTO Agreement on the Application of Sanitary and Phytosanitary Measures;

Sanitary or phytosanitary measure means any measure referred to in Annex A, paragraph 1 of the WTO SPS Agreement;

For the purposes of this Chapter, definitions in Annex A of the SPS Agreement apply, as well as those adopted by Codex Alimentarius (Codex), the World Organisation for Animal Health (OIE), and the International Plant Protection Convention (IPPC). In the event of an inconsistency between the definitions adopted by Codex, the OIE, the IPPC and the definitions set out in under the WTO SPS Agreement, the definitions set out in the WTO SPS Agreement shall prevail.

LIMITED

In addition, the following definitions shall apply:

- a) “Protected Zone” for a specified regulated harmful organism is an officially defined geographical area in the EU in which that organism is not established in spite of favourable conditions and its presence in other parts of the Union.
- b) Competent authorities of the Parties are identified in Annex 1 (Competent Authorities).

Article 4

Scope and Coverage

This Chapter applies to all SPS measures that may, directly or indirectly, affect trade between the Parties.

Article 5

Rights and Obligations

The Parties affirm their rights and obligations under the WTO SPS Agreement.

Article 6

Adaptation to Regional Conditions

Animals, animal products and animal by-products

1. The Parties recognise the concept of zoning which they agree to apply in respect of the diseases listed in Annex II [Regional Conditions].
2. If the Parties agree on principles and guidelines for the recognition of regional conditions, the Parties shall include them in Annex III. [Process of Recognition of Regional Conditions].
3. For the purpose of paragraph 1, the importing Party shall base its sanitary measures applicable to the exporting Party whose territory is affected by one or more of the diseases listed in Annex II [Regional Conditions] on the zoning decisions made by that Party, provided that the importing Party is satisfied that the exporting Party’s zoning decisions are in accordance with Annex III and are based on relevant international standards, guidelines and recommendations. This obligation is without prejudice to the right of the importing Party to apply any additional measure or measures so as to achieve its appropriate level of protection.
4. Where one of the Parties considers that it has a special status with respect to a disease not listed in Annex II, it may request recognition of that status. The importing Party may request

LIMITED

SPS

additional guarantees in respect of imports of live animals, animal products and animal by-products appropriate to the status recognized by the importing Party, including the special conditions identified in Annex V.

5. The Parties also recognise the concept of compartmentalisation and agree to cooperate on this matter.

Plants and plant products

1. When establishing or maintaining its phytosanitary measures, the importing Party shall take into account, *inter alia*, the pest status in an area, such as pest free areas, pest free places of production, pest free production sites, areas of low pest prevalence, as well as protected zones established by the exporting Party.
2. If the Parties agree on principles and guidelines for the recognition of regional conditions, the Parties shall include them in Annex III. [Process of Recognition of Regional Conditions].

Article 7

Equivalence

1. The importing Party shall accept the SPS measures of the exporting Party as equivalent to its own if the exporting Party objectively demonstrates to the importing Party that its measure achieves the importing Party's appropriate level of protection.
2. Annex IV sets out principles and guidelines for the determination, recognition and maintenance of equivalence.
3. Annex V sets out:
 - a) The areas for which the importing Party recognizes that the measures of the exporting Party are equivalent to its own, and
 - b) The areas for which the importing Party recognizes that the fulfilment of the specified special conditions, combined with the exporting Party's measures, achieve the importing Party's appropriate level of protection.

Article 8

Trade Conditions

1. The importing Party shall make available its general sanitary and phytosanitary import requirements for all commodities. For a specific commodity jointly identified as a priority by the Parties, the importing Party shall establish specific import requirements, unless the Parties

LIMITED

jointly decide otherwise. In identifying which commodities are priorities, the Parties shall cooperate to ensure the efficient management of their available resources. The specific import requirements should be applicable to the total territory of the exporting Party.

2. For a commodity identified as a priority pursuant to paragraph 1, the importing Party shall undertake, without undue delay, the necessary process for establishing specific import requirements for that commodity. Once these specific import requirements have been established, the importing Party shall take the necessary steps, without undue delay, to allow trade on the basis of these import requirements.
3. In order to establish the specific import requirements, the exporting Party shall, upon request of the importing Party:
 - a) provide all relevant information required by the importing Party; and
 - b) give reasonable access to the importing Party for inspection, testing, audit and other relevant procedures.
4. For the import of commodities where establishments or facilities are required to be included on a list by the importing Party, the importing Party shall approve establishments or facilities which are situated on the territory of the exporting Party without prior inspection of individual establishments if:
 - a) the exporting Party has requested such an approval for a given establishment or facility, accompanied by the appropriate guarantees, and
 - b) the conditions and procedures set out in Annex VI are fulfilled.

The importing Party shall make its lists publicly available.
5. Consignments of regulated commodities shall be normally accepted without pre-clearance of the commodity on a consignment basis, unless the Parties agree otherwise.
6. The importing Party may require that the relevant competent authority of the exporting Party objectively demonstrate, to the satisfaction of the importing Party, that the import requirements may be fulfilled or are fulfilled.
7. Annex VII sets out procedures that the Parties should follow related to specific import requirements for plant health.

In order to maintain confidence in the effective implementation of the provisions of this Chapter, each Party has the right to carry out an audit or verification, or both, of all or part of the other Party's authorities' control program. Each Party shall bear its own costs associated with the audit or verification.
2. If the Parties agree on principles and guidelines for conducting an audit or verification, the Parties shall include them in Annex VIII [Principles and Guidelines for Conducting an Audit or Verification]. If a Party conducts an audit or verification, it shall do so in accordance with any principles and guidelines in Annex VIII.

Article 10
Export Certification

1. When an official health certificate is required for the importation of a consignment of live animals or animal products and if the importing Party has accepted the measures of the exporting Party as equivalent to its own with respect to such animals or animal products, the Parties shall use the model health attestation prescribed in Annex IX for such certificate, unless the Parties jointly decide otherwise. The Parties may also use a model attestation for other products if they so jointly decide.
2. Annex IX sets out principles and guidelines for export certification, including electronic certification, withdrawal or replacement of certificates, language regimes and model attestations.

Article 11
Import checks and Fees

1. Annex X sets out principles and guidelines for import checks and fees, including the frequency rate for import checks.
2. In the event that import checks reveal non-compliance with the relevant import requirements, the action taken by the importing Party shall be based on an assessment of the risk involved and shall ensure that such measures are not more trade-restrictive than required to achieve the Party's appropriate level of sanitary or phytosanitary protection
3. Wherever possible, the importer of a non-compliant consignment, or its representative, shall be notified of the reason for non-compliance, and be provided the opportunity to contribute relevant information to assist the importing Party in taking a final decision.

CHAPTER X

CUSTOMS AND TRADE FACILITATION

Article X-1: Objectives and Principles

1. The Parties acknowledge the importance of customs and trade facilitation matters in the evolving global trading environment.
2. The Parties shall to the extent possible cooperate and exchange information, including information on best practices, for the purpose of promoting the application of and compliance with the trade facilitation measures agreed upon under this Agreement.
3. The Parties agree that measures to facilitate trade shall not hinder mechanisms to protect persons through effective enforcement of and compliance with national requirements.
4. The Parties agree that import, export and transit requirements and procedures shall be no more administratively burdensome or trade restrictive than necessary to achieve legitimate objectives.
5. The Parties agree that international trade and customs instruments and standards shall be the basis for import, export and transit requirements and procedures, where such instruments and standards exist, except where they would be an inappropriate or ineffective means for the fulfillment of the legitimate objectives pursued.

Article X-2: Transparency

1. Each Party shall publish or otherwise make available, including through electronic means, all their legislation, regulations, judicial decisions and administrative policies relating to its requirements for imported or exported goods.
2. Each Party shall endeavour to make public, including on the internet, any regulations and administrative policies governing customs matters that it proposes to adopt and provide interested persons the opportunity to comment prior to their adoption.
3. Each Party shall designate or maintain one or more contact points to address inquiries by interested persons concerning customs matters and make available on the internet information concerning the procedures for making such inquiries.

Article X-3: Release of Goods

1. Each Party shall adopt or maintain simplified customs procedures for the efficient release of goods in order to facilitate trade between the Parties and reduce costs for importers and exporters. Such procedures:
 - (a) shall allow for the release of goods within a period no greater than that required to ensure compliance with its Canadian domestic law and EU or EU Member States' legislation.
 - (b) may require the submission of more extensive information through post-entry accounting and verifications, as appropriate;
 - (c) shall allow goods, and to the greatest extent possible controlled or regulated goods, to be released at the first point of arrival ;
 - (d) shall endeavour to allow for the expeditious release of goods in need of emergency clearance;
 - (e) shall allow an importer or its agent to remove goods from custom's control prior to the final determination and payment of customs duties, taxes, and fees. Before releasing the goods, a Party may require that an importer provide sufficient guarantee in the form of a surety, a deposit, or some other appropriate instrument;
 - (f) provide for, in accordance with Canadian domestic law and EU or EU Member States legislation simplified documentation requirements for the entry of low-value goods as determined by that Party
2. Each Party shall allow for the expedited release of goods and, to the extent possible or where applicable, shall:
 - (a) provide for advance electronic submission and processing of information before physical arrival of goods to enable their release upon arrival, where no risk has been identified or where no random checks are to be performed and
 - (b) provide for clearance of certain goods with a minimum of documentation.
3. Each Party shall, to the extent possible, ensure that its authorities and agencies involved in border and other import and export controls cooperate and coordinate to facilitate trade by, inter alia, converging import and export data and documentation requirements, and establishing a single location for one-time documentary and physical verification of consignments.
4. Each Party shall ensure, to the greatest extent possible, that the requirements of its agencies related to the import and export of goods are coordinated to facilitate trade, regardless of whether these requirements are administered by an agency or on behalf of that agency by the customs administration.

A Party shall not impose new or amended fees and charges until it publishes or otherwise makes available this information.

Article X-7: Risk Management

1. Each Party shall base its examination and release procedures and its post-entry verification procedures on risk assessment principles, rather than examining each shipment offered for entry in a comprehensive manner for compliance with all import requirements.
2. The Parties agree to adopt and apply their import, export and transit requirements and procedures for goods on the basis of risk management principles, to be applied to focus compliance measures on transactions that merit attention.
3. The above shall not preclude a Party from conducting quality control and compliance reviews, which may require more extensive examinations.

Section 3: Non-Discriminatory Treatment

Article X.6: National Treatment

1. Each Party shall accord to investors of the other Party and to covered investments, treatment no less favourable than the treatment it accords, in like situations to its own investors and to their investments with respect to the establishment, acquisition, expansion, conduct, operation, management, maintenance, use, enjoyment and sale or disposal of their investments in its territory.
2. The treatment accorded by a Party under paragraph 1 means, with respect to a government in Canada other than at the federal level, or, with respect to a government of or in a European Member State, treatment no less favourable than the most favourable treatment accorded, in like situations, by that government to investors of that Party in its territory and to investments of such investors.

Article X.7: Most-Favoured-Nation Treatment

1. Each Party shall accord to investors of the other Party and to covered investments, treatment no less favourable than the treatment it accords in like situations, to investors and to their investments of any third country with respect to the establishment, acquisition, expansion, conduct, the operation, management, maintenance, use, enjoyment and sale or disposal of their investments in its territory.
2. For greater certainty, the treatment accorded by a Party under paragraph 1 means, with respect to a government in Canada other than at the federal level, or, with respect to a government of or in a European Member State, treatment accorded, in like situations, by that government to investors in its territory, and to investments of such investors, of any third country.
3. Paragraph 1 shall not apply to treatment accorded by a Party providing for recognition, including through arrangements or agreements with third parties recognising accreditation of testing and analysis services and service suppliers or repair and maintenance services and service suppliers, as well as the certification of the qualifications of or the results or work done by such accredited services and service suppliers.
4. For greater certainty, the “treatment” referred to in Paragraph 1 and 2 does not include investor-to-state dispute settlement procedures provided for in other international investment treaties and other trade agreements. Article X.9: Treatment of Investors and of Covered Investments

1. Each Party shall accord in its territory to covered investments of the other Party and to investors with respect to their covered investments fair and equitable treatment and full protection and security in accordance with paragraphs 2 to 6.
2. A Party breaches the obligation of fair and equitable treatment referenced in paragraph 1 where a measure or series of measures constitutes:
 - (a) Denial of justice in criminal, civil or administrative proceedings;
 - (b) Fundamental breach of due process, including a fundamental breach of transparency, in judicial and administrative proceedings.
 - (c) Manifest arbitrariness;
 - (d) Targeted discrimination on manifestly wrongful grounds, such as gender, race or religious belief;

 - (f) A breach of any further elements of the fair and equitable treatment obligation adopted by the Parties in accordance with paragraph 3 of this Article.
3. The Parties shall regularly, or upon request of a Party, review the content of the obligation to provide fair and equitable treatment. The Committee on Services and Investment may develop recommendations in this regard and submit them to the Trade Committee for decision.
4. When applying the above fair and equitable treatment obligation, a tribunal may take into account whether a Party made a specific representation to an investor to induce a covered investment, that created a legitimate expectation, and upon which the investor relied in deciding to make or maintain the covered investment, but that the Party subsequently frustrated.
5. For greater certainty, 'full protection and security' refers to the Party's obligations relating to physical security of investors and covered investments.
6. For greater certainty, a breach of another provision of this Agreement, or of a separate international Agreement, does not establish that there has been a breach of this Article.

Article X.10: Compensation for Losses

Notwithstanding paragraph 5(b) of Article X.14 (Reservations and Exceptions), each Party shall accord to investors of the other Party, whose covered investments suffer losses owing to armed conflict, civil strife, a state of emergency or natural disaster in its territory, treatment no less favourable than that it accords to its own investors or to the investors of any third country, whichever is more favourable to the investor concerned, as regards restitution, indemnification, compensation or other settlement.

Article X.11: Expropriation

1. Neither Party may nationalize or expropriate a covered investment either directly, or indirectly through measures having an effect equivalent to nationalization or expropriation (hereinafter referred to as “expropriation”), except:

- (a) for a public purpose;
- (b) under due process of law;
- (c) in a non-discriminatory manner; and
- (d) against payment of prompt, adequate and effective compensation.

For greater certainty, this paragraph shall be interpreted in accordance with Annex X.11 on the clarification of expropriation.

2. Such compensation shall amount to the fair market value of the investment at the time immediately before the expropriation or the impending expropriation became known, whichever is earlier. Valuation criteria shall include going concern value, asset value including the declared tax value of tangible property, and other criteria, as appropriate, to determine fair market value.

3. The compensation shall also include interest at a normal commercial rate from the date of expropriation until the date of payment and shall, in order to be effective for the investor, be paid and made transferable, without delay, to the country designated by the investor and in the currency of the country of which the investor is a national or in any freely convertible currency accepted by the investor.

4. The investor affected shall have a right, under the law of the expropriating Party, to prompt review of its claim and of the valuation of its investment, by a judicial or other independent authority of that Party, in accordance with the principles set out in this Article.

5. This Article does not apply to the issuance of compulsory licenses granted in relation to intellectual property rights, to the extent that such issuance is consistent with the Agreement on Trade-Related Aspects of Intellectual Property Rights in Annex 1C to the WTO Agreements (“TRIPS Agreement”).

6. For greater certainty, the revocation, limitation or creation of intellectual property rights to the extent that these measures are consistent with TRIPS and Chapter X (Intellectual Property) of this Agreement, do not constitute expropriation. Moreover, a determination that these actions are inconsistent with the TRIPS Agreement or Chapter X (Intellectual Property) of this Agreement does not establish that there has been an expropriation.

4. Notwithstanding paragraphs 1, 2 or 3, nothing in this article shall be construed to prevent a Party from applying in an equitable and non-discriminatory manner and not in a way that would constitute a disguised restriction on transfers, its laws relating to:

- (a) bankruptcy, insolvency or the protection of the rights of creditors;

 3. The requirements of subparagraphs 1(f), (g) and paragraph 2 do not apply in respect of a locally established enterprise where the respondent or the investor's host State has deprived an investor of control of the locally established enterprise, or has otherwise prevented the locally established enterprise from fulfilling such requirements.
 4. Upon request of the respondent, the Tribunal shall decline jurisdiction where the investor or, as applicable, the locally established enterprise fails to fulfil any of the requirements of paragraphs 1 and 2.

Article X.23: Proceedings under different international agreements

Where claims related to the same measure are brought both pursuant to this Section and another international agreement and:

(b) the other international claim could have a significant impact on the resolution of the claim brought pursuant to this Section,

a Tribunal constituted under this Section shall, as soon as possible after hearing the disputing parties, stay its proceedings or otherwise ensure that proceedings pursuant to another international agreement are taken into account in its decision, order or award.

Article X.24: Consent to Arbitration

1. The respondent consents to the submission of a claim to arbitration under this Section in accordance with the procedures set out under this Agreement.
2. The consent under paragraph 1 and the submission of a claim to arbitration under this Chapter shall satisfy the requirements of:
 - (a) Article 25 of the ICSID Convention and Chapter II (Institution of Proceedings) of the ICSID Additional Facility Rules for written consent of the disputing parties; and,
 - (b) Article II of the New York Convention for an agreement in writing.

Article X.25: Constitution of the Tribunal

1. Unless the disputing parties have agreed to appoint a sole arbitrator, the Tribunal shall comprise three arbitrators. One arbitrator shall be appointed by each of the disputing parties and the third, who will be the presiding arbitrator, shall be appointed by agreement of the disputing parties. If the disputing parties agree to appoint a sole arbitrator, the disputing parties shall seek to agree on the sole arbitrator.

3. The Secretary-General of ICSID shall, upon request of a disputing party, appoint the remaining arbitrators from the list established pursuant to paragraph 4. The Secretary-General of ICSID may not appoint as presiding arbitrator a national of either Canada or a Member State of the European Union unless all disputing parties agree otherwise.

4. Pursuant to Article X.42(2)(a), the Committee on Services and Investment shall establish, and thereafter maintain, a list of individuals who are willing and able to serve as arbitrators and who meet the qualifications set out in paragraph 5. It shall ensure that the list includes at least 15 individuals but may agree to increase the number of individuals. The list shall be composed of three sub-lists each comprising at least five individuals: one sub-list for each Party, and one sub-list of individuals who are neither nationals of Canada nor the Member States of the European Union to act as presiding arbitrators.
5. Arbitrators appointed pursuant to this Section shall have expertise or experience in public international law, in particular international investment law. It is desirable that they have expertise or experience in international trade law and the resolution of disputes arising under international investment or international trade agreements.
6. Arbitrators shall be independent of, and not be affiliated with or take instructions from, a disputing party or the government of a Party with regard to trade and investment matters. Arbitrators shall not take instructions from any organisation, government or disputing party with regard to matters related to the dispute. Arbitrators shall comply with the International Bar Association Guidelines on Conflicts of Interest in International Arbitration or any supplemental rules adopted pursuant to Article X.42(2)(b) (Committee on Services and Investment). 7. If a disputing party considers that an arbitrator does not meet the requirements set out in paragraph 6, it shall send a notice of its intent to challenge the arbitrator within 15 days after:
 - (a) the appointment of the arbitrator has been notified to the challenging party; or,
 - (b) the disputing party became aware of the facts giving rise to the alleged failure to meet such requirements.
8. The notice of an intention to challenge shall be promptly communicated to the other disputing party, to the arbitrator or arbitrators, as applicable, and to the Secretary-General of ICSID. The notice of challenge shall state the reasons for the challenge.
9. When an arbitrator has been challenged by a disputing party, the disputing parties may agree to the challenge, in which case the disputing parties may request the challenged arbitrator to resign. The arbitrator may, after the challenge, elect to resign. A decision to resign does not imply acceptance of the validity of the grounds for the challenge.
10. If, within 15 days from the date of the notice of challenge, the challenged arbitrator has elected not to resign, the Secretary-General of ICSID shall, after hearing the disputing parties

Article X.26: Agreement to the Appointment of Arbitrators

 - (b) an investor may submit a claim to arbitration or continue a claim under the ICSID Convention or, as the case may be, the ICSID Additional Facility Rules only if the investor agrees in writing to the appointment of each member of the Tribunal.

2. Where serious concerns arise as regards matters of interpretation that may affect investment, the Committee on Services and Investment may, pursuant to Article X.42(3)(a), recommend to the Trade Committee the adoption of interpretations of the Agreement. An interpretation adopted by the Trade Committee shall be binding on a Tribunal established under this Chapter. The Trade Committee may decide that an interpretation shall have binding effect from a specific date.

Article X.28: Place of Arbitration

The disputing parties may agree on the place of arbitration under the applicable arbitration rules provided it is in the territory of a party to the New York Convention. If the disputing parties fail to agree on the place of arbitration, the Tribunal shall determine the place of arbitration in accordance with the applicable arbitration rules, provided that it shall be in the territory of either Party or of a third state that is a party to the New York Convention.

3. The respondent shall specify as precisely as possible the basis for the objection.
4. On receipt of an objection pursuant to this Article, the Tribunal shall suspend the proceedings on the merits and establish a schedule for considering any objections consistent with its schedule for considering any other preliminary question.
5. The Tribunal, after giving the disputing parties an opportunity to present their observations, shall at its first session or promptly thereafter, issue a decision or award, stating the grounds therefor. In doing so, the Tribunal shall assume the alleged facts to be true.
6. This Article shall be without prejudice to the Tribunal's authority to address other objections as a preliminary question or to the right of the respondent to object, in the course of the proceeding, that a claim lacks legal merit.

Article X.30: Claims Unfounded as a Matter of Law

1. Without prejudice to a tribunal's authority to address other objections as a preliminary question or to a respondent's right to raise any such objections at any appropriate time, the Tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim, or any part thereof, submitted pursuant to Article X.22 (Submission of a Claim to Arbitration) is not a claim for which an award in favour of the claimant may be made under this Section, even if the facts alleged were assumed to be true.
2. An objection under paragraph 1 shall be submitted to the Tribunal no later than the date the Tribunal fixes for the respondent to submit its counter-memorial.
3. If an objection has been submitted pursuant to Article X.29 (Claims Manifestly Without Legal Merit), the Tribunal may, taking into account the circumstances of that objection, decline to address, under the procedures set out in this Article, an objection submitted pursuant to paragraph 1.
4. On receipt of an objection under paragraph 1, and, where appropriate, after having taken a decision pursuant to paragraph 3, the Tribunal shall suspend any proceedings on the merits, establish a schedule for considering the objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefor.

Article X.31: Interim Measures of Protection

Article X.32: Discontinuance

If, following the submission of a claim to arbitration under this Section, the investor fails to take any steps in the proceeding during 180 consecutive days or such periods as the disputing parties may agree, the investor shall be deemed to have withdrawn its claim and to have discontinued the proceedings. The Tribunal, or if no tribunal has been established, the Secretary-General of ICSID shall, at the request of the respondent, and after notice to the disputing parties, in an order take note of the discontinuance. After such an order has been rendered the authority of the tribunal shall lapse.

Article X.33: Transparency of Proceedings

1. The UNCITRAL Transparency Rules shall apply to the disclosure of information to the public concerning disputes under this Section as modified by this Chapter.
2. The request for consultations, the notice requesting a determination of the respondent, the notice of determination of the respondent, the agreement to mediate, the notice of intent to challenge, the decision on an arbitrator challenge and the request for consolidation shall be included in the list of documents referred to in Article 3(1) of the UNCITRAL Transparency Rules.

Such documents may be made publicly available by communication to the repository.
5. Hearings shall be open to the public. The tribunal shall determine, in consultation with the disputing parties, the appropriate logistical arrangements to facilitate public access to such hearings. Where the tribunal determines that there is a need to protect confidential or protected information, it shall make the appropriate arrangements to hold in private that part of the hearing requiring such protection.
6. Nothing in this Chapter requires a respondent to withhold from the public information required to be disclosed by its laws. The respondent should endeavour to apply such laws in a manner sensitive to protecting from disclosure information that has been designated as confidential or protected information.

However, the disputing party shall ensure that those persons protect the confidential or protected information contained in those documents.
2. In exceptional circumstances, a tribunal may apportion costs between the disputing parties if it determines that apportionment is appropriate in the circumstances of the claim. Other reasonable costs, including costs of legal representation and assistance, shall be borne by the unsuccessful disputing party, unless the tribunal determines that such apportionment is unreasonable in the circumstances of the claim. 5. A Tribunal established under this Article shall comprise three arbitrators: one arbitrator appointed by the respondent, one arbitrator appointed by agreement of the investors, and the third, who shall be the presiding arbitrator, appointed by agreement of the disputing parties. If the respondent or the investors fail to appoint an arbitrator within 45 days after the Secretary-General of ICSID receives a request for consolidation, or if the disputing parties have not agreed to a presiding arbitrator within 60 days after the Secretary-General of ICSID receives a request for consolidation, a disputing party may request the Secretary-General of ICSID to appoint the arbitrator or arbitrators not yet appointed in accordance with paragraph 3 of Article X.25 (Constitution of the Tribunal).
6. If, after hearing the disputing parties, a Tribunal established under this Article is satisfied that claims submitted to arbitration under Article X.22 (Submission of a Claim to Arbitration) have a question of law or fact in common and arise out of the same events or circumstances, and consolidation would best serve the interests of fair and efficient resolution of the claims including the interest of consistency of arbitral awards, the tribunal may, by order, assume jurisdiction over some or all of the claims, in whole or in part.
7. Where a Tribunal has been established under this Article and has assumed jurisdiction pursuant to paragraph 6, an investor that has submitted a claim to arbitration under Article X.22 (Submission of a Claim to Arbitration) and whose claim has not been consolidated may make a written request to the Tribunal that it be included in such order provided that the request complies with the requirements set out in paragraph 3. The Tribunal shall grant such order where it is satisfied that the conditions of paragraph 6 are met and that granting such a request would not unduly burden or unfairly prejudice the disputing parties or unduly disrupt

the proceedings. Before a Tribunal issues such an order, it shall consult with the disputing parties.

8. On application of a disputing party, a Tribunal established under this Article, pending its decision under paragraph 6, may order that the proceedings of a Tribunal established under Article X.22 (Submission of a Claim to Arbitration) be stayed unless the latter Tribunal has already adjourned its proceedings.
9. A Tribunal established under Article X.22 (Submission of a Claim to Arbitration) shall cede jurisdiction in relation to the claims, or parts thereof, over which a tribunal established under this Article has assumed jurisdiction.
10. The award of the Tribunal established under this Article in relation to those claims, or parts thereof, over which it has assumed jurisdiction shall become binding on the tribunals established pursuant to Article X.22 (Submission of a Claim to Arbitration) as regards those claims, or parts thereof, once the conditions of Article 39(3) (Enforcement of Awards) have been fulfilled.
11. An investor may withdraw a claim from arbitration under this Section that is subject to consolidation and such claim may not be resubmitted to arbitration under Article X.22 (Submission of a Claim to Arbitration). If it does so no later than 15 days after receipt of the notice of consolidation, its earlier submission of the claim to arbitration shall not prevent the investor's recourse to dispute settlement other than under this Chapter.
12. At the request of an investor, the Tribunal established under this Article may take such measures as it sees fit in order to preserve the confidential or protected information of that investor vis-à-vis other investors. Such measures may include the submission of redacted versions of documents containing confidential or protected information to the other investors or arrangements to hold parts of the hearing in private.

Article X.42: Committee

1. The Committee on Services and Investment shall provide a forum for the Parties to consult on issues related to this Section, including:
 - (a) difficulties which may arise in the implementation of this Chapter;
 - (b) possible improvements of this Chapter, in particular in the light of experience and developments in other international fora; and,
 - (c) whether, and if so, under what conditions, an appellate mechanism could be created under the Agreement to review, on points of law, awards rendered by a tribunal under this Section, or whether awards rendered under this Section could be subject to such an appellate mechanism developed pursuant to other institutional arrangements. 2. The Committee shall, on agreement of the Parties, and after completion of the respective legal requirements and procedures of the Parties:

- (a) establish and maintain the list of arbitrators pursuant to Article X.25(3) (Constitution of the Tribunal);
- (b) adopt a code of conduct for arbitrators to be applied in disputes arising out of this Chapter, which may replace or supplement the rules in application, and that may address topics including:
 - (i) disclosure obligations;
 - (ii) the independence and impartiality of arbitrators; and
 - (iii) confidentiality.

The Parties shall make best efforts to ensure that the list of arbitrators is established and the code of conduct adopted no later than the entry into force of the Agreement, and in any event no later than two years after the entry into force of the Agreement.

[Note to scrub: agreed in principle that the time periods run from provisional application, if any. Drafting to be checked in the light of the general and final provisions of CETA]

3. The Committee may, on agreement of the Parties, and after completion of the respective legal requirements and procedures of the Parties:

- (d) recommend to the Trade Committee the adoption of any further elements of the fair and equitable treatment obligation pursuant to Section 5, Article X.9(4) (Treatment of Investors and of Covered Investments).

Annex X.11: Expropriation

The Parties confirm their shared understanding that:

1. Expropriation may be either direct or indirect:
 - (a) direct expropriation occurs when an investment is nationalised or otherwise directly expropriated through formal transfer of title or outright seizure; and
 - (b) indirect expropriation occurs where a measure or series of measures of a Party has an effect equivalent to direct expropriation, in that it substantially deprives the investor of the fundamental attributes of property in its investment, including the right to use, enjoy and dispose of its investment, without formal transfer of title or outright seizure.
2. The determination of whether a measure or series of measures of a Party, in a specific fact situation, constitutes an indirect expropriation requires a case-by-case, fact-based inquiry that considers, among other factors:
 - (a) the economic impact of the measure or series of measures, although the sole fact that a measure or series of measures of a Party has an adverse effect on the economic value of an investment does not establish that an indirect expropriation has occurred;
 - (b) the duration of the measure or series of measures by a Party;
 - (c) the extent to which the measure or series of measures interferes with distinct, reasonable investment-backed expectations; and
 - (d) the character of the measure or series of measures, notably their object, context and intent.
3. For greater certainty, except in the rare circumstance where the impact of the measure or series of measures is so severe in light of its purpose that it appears manifestly excessive, non-discriminatory measures of a Party that are designed and applied to protect legitimate public welfare objectives, such as health, safety and the environment, do not constitute indirect expropriations.

Mindful that investor state dispute settlement tribunals are meant to enforce the obligations referred to in Article X.17(1): Scope of a Claim to Arbitration of Chapter x (yyy), and are not an appeal mechanism for the decisions of domestic courts, the Parties recall that the domestic courts of each Party are responsible for the determination of the existence and validity of intellectual property rights. The Parties further recognize that each Party shall be free to determine the appropriate method of implementing the provisions of this Agreement regarding intellectual property within their own legal system and practice. The Parties agree to review the relation between intellectual property rights and investment disciplines within 3 years after entry into force of the agreement or at the request of a Party. 13. MUTUAL RECOGNITION OF PROFESSIONAL QUALIFICATIONS

Chapter xx

MUTUAL RECOGNITION OF PROFESSIONAL QUALIFICATIONS

31 July, 2014

Article 1: Objectives and Scope

1. This Chapter establishes the framework to facilitate a fair, transparent and consistent regime for the mutual recognition of professional qualifications by the Parties and determines the general conditions for the negotiation of agreements on the mutual recognition of professional qualifications (MRAs).

2. This chapter applies to professions which are regulated in both Parties, including in all or some EU Member States and in all or some Provinces and Territories of Canada.

3. No Party may accord recognition in a manner that would constitute a means of discrimination in the application of its criteria for the authorization, licensing or certification of services suppliers, or a disguised restriction on trade in services.

4. An MRA adopted pursuant to this Chapter shall apply throughout the entire territories of the EU and Canada, as defined in Article X Geographical Scope of Application of Chapter Y.

For greater certainty, the obligations of this chapter apply to the Exclusive Economic Zones and Continental Shelves, as provided in the United Nations Convention on the Law of the Sea of 10 December 1982:

(a) of Canada as referred to in Article X.02 (Country-specific definitions – Geographical scope of Application (a)); and

(b) in which the Treaty on the European Union and the Treaty on the Functioning of the European Union Treaty are applied as referred to in Article X.02 (Country-specific definitions – Geographical scope of Application (b)).

Article 2: Definitions

Jurisdiction means the territory of Canada and of each of the Member States of the European Union, insofar as this Agreement applies in these territories in accordance with Article X Geographical Scope of Application in Chapter Y.

Negotiating Entity means a person or body entitled or empowered to negotiate an MRA.

Mutual Recognition

Final 1 August 2014

Professional experience means the effective and lawful practice of a service activity.

Professional qualifications mean the qualifications attested by evidence of formal qualification and/or professional experience.

Relevant Authority means any authority or body, designated pursuant to legislative, regulatory or administrative provisions to recognize qualifications and authorize the practice of a profession in a jurisdiction;

Regulated profession means a service activity, the exercise of which, including the use of a title or designation, is subject to the possession of specific qualifications, by virtue of legislative, regulatory or administrative provisions.

Article 3: Negotiation of an agreement on the mutual recognition of professional qualifications

a) The Parties shall encourage the Relevant Authorities or professional bodies, as appropriate, in their respective jurisdictions to develop and provide to the Joint Committee on Mutual Recognition (the Joint Committee) joint recommendations on proposed MRAs.

b) A recommendation shall:

i) provide an assessment of the potential value of an MRA, on the basis of criteria such as the existing level of market openness, industry needs, and business opportunities (e.g. the number of professionals likely to benefit from the MRA), the existence of other MRAs in the sector, and expected gains in terms of economic and business development.

ii) provide an assessment as to the compatibility of their respective licensing and/or qualification regimes and the intended approach for the negotiation of an MRA.

ANNEX X Y

Guidelines for Agreements on the Mutual Recognition of Professional Qualifications (MRAs)

Introduction

This Annex contains guidelines to provide practical guidance for and to facilitate the negotiation of MRAs with respect to regulated professions. These guidelines are non-binding and they do not modify or affect the rights and obligations of the Parties under this Agreement.

The examples listed under the various sections of these guidelines are provided by way of illustration.

Form and Content of the Agreement

This section sets out various issues that may be addressed in any negotiations and, if so agreed, included in final MRAs. It outlines some basic ideas on what might be required of foreign professionals seeking to benefit from an MRA.

1. Participants

The parties to the MRA should be clearly stated.

2. Purpose of Agreement

The purpose of the MRA should be clearly stated.

3. Scope of the MRA

The MRA should set out clearly:

- i) the scope of the MRA, in terms of the specific professional titles and activities which it covers;
- ii) who is entitled to use the professional titles concerned;
- iii) whether the recognition mechanism is based on formal qualifications, a licence obtained in the home jurisdiction, or on some other requirement(s); and
- iv) whether the MRA covers temporary and/or permanent access to the profession concerned.

4. Mutual Recognition Provisions

The MRA should clearly specify the conditions to be met for the recognition of qualifications in each jurisdiction and the level of equivalence agreed.

The following four-step process should be considered to simplify and facilitate the recognition of the qualifications.

LIMITED

LIMITED

Mutual Recognition

Final 1 August 2014

Four-Step Process for the Recognition of Qualifications

Step One: Verification of Equivalency

The Negotiating Entities should verify the overall equivalence of the scopes of practice or qualifications of the regulated profession in their respective jurisdictions.

The examination of qualifications should entail the collection of all relevant information pertaining to the scope of practice rights related to a legal competency to practice or to the qualifications required for a specific regulated profession in the respective jurisdictions.

Consequently, the Negotiating Entities should:

- i) identify activities or groups of activities covered by the scope of practice rights of the regulated profession; and
- ii) identify the qualifications required in each jurisdiction. These may include but are not limited to the following elements:
 - a) the minimum level of education required (e.g. entry requirements, length of study, subjects studied);
 - b) the minimum level of experience required (e.g. location, length and conditions of practical training or supervised professional practice prior to licensing, framework of ethical and disciplinary standards);
 - c) examinations passed (especially examinations of professional competency);
 - d) the extent to which qualifications from one jurisdiction are recognised in the other jurisdiction; and,
 - e) the qualifications which the Relevant Authorities in each jurisdiction are prepared to recognise, for instance, by listing particular diplomas or certificates issued, or by reference to particular minimum requirements to be certified by the Relevant Authorities of the jurisdiction of origin, including whether the possession of a certain level of qualification would allow recognition for some activities of the scope of practice but not others (level and length of education, major educational focuses, overall subjects and areas).

There is an overall equivalence between the scope of practice rights or the qualifications of the regulated profession where there are no substantial differences in this regard between jurisdictions.

Step Two: Evaluation of Substantial Differences

LIMITED

LIMITED

Mutual Recognition

Final 1 August 2014

There exists a substantial difference in the scope of qualifications required to exercise a regulated profession, in cases of:

- i) important differences in the essential knowledge, and
- ii) significant differences in the duration or content of the training between jurisdictions.

There exists a substantial difference in the scope of practice when:

- i) one or more professional activities do not form part of the corresponding profession in the home jurisdiction
- ii) these activities are subject to specific training in the host jurisdiction and,
- iii) the training for these activities in the host jurisdiction covers substantially different matters from those covered by the applicant's qualification.

Step Three: Compensatory Measures

Should the Negotiating Entities determine that there is a substantial difference in the scope of practice rights or of formal qualifications between the jurisdictions, they may determine compensatory measures to bridge the gap.

A compensatory measure may take the form of, *inter alia*, an adaptation period or, if required, an aptitude test.

Compensatory measures should be proportionate to the substantial difference which they seek to address. The Negotiating Entities should also evaluate any practical professional experience obtained in the home jurisdiction to see whether such experience is sufficient to remedy, in whole or in part, the substantial difference in the scope of practice rights or formal qualifications between the jurisdictions, prior to determining a compensatory measure.

Step Four: Identification of the Conditions for Recognition

Once the assessment of the overall equivalency of the scopes of practice rights or qualifications of the regulated profession is completed, the Negotiating Entities should specify in the MRA:

- i) the legal competency required to practice the regulated profession;
- ii) the qualifications for the regulated profession;
- iii) whether compensatory measures are necessary;
- iv) the extent to which professional experience may compensate for any substantial differences;
- v) a description of any compensatory measure, including the use of any adaptation periods or aptitude tests.

5. Mechanisms for Implementation

The MRA should state:

- i) the rules and procedures to be used to monitor and enforce the provisions of the agreement;

LIMITED

LIMITED

Mutual Recognition

Final 1 August 2014

- ii) the mechanisms for dialogue and administrative co-operation between the parties to the MRA; and
- iii) the means for individual applicants to address any matters arising from the interpretation or implementation of the MRA.

As a guide to the treatment of individual applicants, the MRA should include details on:

- i) the point of contact for information on all issues relevant to the application (e.g. name and address of Relevant Authorities, licensing formalities, information on additional requirements which need to be met in the host jurisdiction);
- ii) the duration of the procedures for the processing of applications by the Relevant Authority of the host jurisdiction;
- iii) the documentation required of applicants and the form in which it should be presented ;
- iv) acceptance of documents and certificates issued in the host jurisdiction in relation to qualifications and licensing;
- v) the procedures of appeal to or review by Relevant Authorities.

The MRA should also include the following commitments by Relevant Authorities:

- i) that requests about the measures will be promptly dealt with;
- ii) that adequate preparation time will be provided where necessary;
- iii) that any exams or tests will be arranged with reasonable frequency;
- iv) that fees to applicants seeking to take advantage of the terms of the MRA will be commensurate with the costs incurred by the host jurisdiction; and
- v) that they will supply information on any assistance programmes in the host jurisdiction for practical training, and any commitments of the host jurisdiction in that context.

6. Licensing and Other Provisions in the Host Jurisdiction

Where applicable, the MRA should also set out the means by which, and the conditions under which, a licence is actually obtained following the establishment of eligibility, and what this licence entails (e.g., a licence and its contents, membership of a professional body, use of professional and/or academic titles). Any licensing requirements other than qualifications should be explained and should include requirements relating to:

- (i) have an office address, maintain an establishment or be a resident;
- (ii) language skills;
- (iii) proof of good character;
- (iv) professional indemnity insurance;
- (v) compliance with host jurisdiction's requirements for use of trade/firm names; and
- (vi) compliance with host jurisdiction ethics (e.g., independence and good conduct); and

In order to ensure the transparency of the system, the MRA should include the following details for each host jurisdiction:

LIMITED

LIMITED

Mutual Recognition

Final 1 August 2014

- (i) the relevant laws and regulations to be applied (e.g. disciplinary action, financial responsibility, liability);
- (ii) the principles of discipline and enforcement of professional standards, including disciplinary jurisdiction and any consequential effects on practicing professional activities;
- (iii) the means for the ongoing verification of competence; and
- (iv) the criteria for, and procedures relating to, revocation of the registration.

7. Revision of the Agreement

If the MRA includes terms under which it can be reviewed or revoked, the details should be clearly stated.

8. Transparency

The Parties should:

- i) make publicly available the text of MRAs which have been concluded and,
- ii) notify the other Party of any modifications to qualifications that may affect the application or implementation of an MRA. Where possible, the other Party should be given an opportunity to comment on such modifications.

Definitions

In the event that the disputing parties are unable to agree on the composition of the Tribunal within the time frame laid down in Article X-10 (Constitution of the Tribunal) either disputing party may request the Secretary-General of

ICSID to select the arbitrators from the list established under Article X-19 (Financial Services – Dispute Settlement). In the event that disputing parties are unable to constitute the Tribunal from the list, or that the list has not been established under Article X [Financial Services – Dispute Settlement] on the date the claim is submitted to arbitration, the Secretary-General of ICSID shall select the arbitrators from the individuals proposed by one or both of the Parties in accordance with Article X-19 [Financial Services –Dispute Settlement].

3. The respondent may refer the matter in writing to the Financial Services Committee for a decision as to whether and, if so, to what extent the exception under Article 15.1 is a valid defence to the claim. Such a referral cannot be made later than the date the Tribunal fixes for the respondent to submit its counter-memorial. Where the respondent refers the matter to the Financial Services Committee under paragraph 3 the time periods or proceedings specified in [Investor-to-State-Dispute Settlement] shall be suspended.
4. In a referral under paragraph 3, the Financial Services Committee or the CETA Trade Committee as the case may be, may make a joint determination on whether and to what extent Article 15.1 [Prudential Carve-Out/Exceptions] is a valid defence to the claim. The Financial Services Committee or the CETA Trade Committee as the case may be, shall transmit a copy of any joint determination to the investor and the Tribunal, if constituted. If such joint determination concludes that Article 15.1 is a valid defence to all parts of the claim in their entirety, the investor shall be deemed to have withdrawn its claim and proceedings shall be discontinued in accordance with Article X (Discontinuance). If such joint determination concludes that Article 15.1 is a valid defence to only parts of the claim, the joint determination shall be binding on the Tribunal with respect to those parts of the claim, the suspension of the timelines or proceedings in paragraph 4 shall no longer apply, and the investor may proceed with any remaining parts of the claim.
5. If the CETA Trade Committee has not made a joint determination within 3 months of referral of the matter by the Financial Services Committee, the suspension of the time periods or proceedings referenced in paragraph 4 shall no longer apply and the investor may proceed with its claim.
6. At the request of the respondent, the Tribunal shall decide as a preliminary matter whether and to what extent Article 15.1 [Prudential Carve-Out/Exceptions] is a valid defence to the claim. Failure of the respondent to make such a request is without prejudice to the right of the respondent to assert Article 15.1 [Prudential Carve-Out/Exceptions] as a defence in a later phase of the arbitration. The Tribunal shall draw no adverse inference from the fact that the Financial Services Committee or the CETA Trade Committee has not agreed on a joint determination in accordance with Annex XXX.

FS – Annex Prudential Carve-out

Final 1 August 2014

ANNEX XX OF THE FINANCIAL SERVICES CHAPTER Understanding between Canada and the EU Guidance on the application of Article 15.1 (Prudential Carve-out) and Article 20 (Investment Disputes in Financial Services)

The Parties recognize that prudential measures strengthen domestic financial systems, encourage sound efficient and robust institutions, markets, and infrastructure; and promote international financial stability by facilitating better-informed lending and investment decisions, improving market integrity, and reducing the risks of financial distress and contagion.

As a result, the Parties have agreed to a prudential carve-out in Article 15.1 allowing the Parties to take measures for prudential reasons, and to establish Financial Services Committee (Article 17) to act as a filter in investment disputes in financial services under Article 20.

Process:

1. The Financial Services Committee, in its role as a filter in investment disputes under Article 20, shall decide whether and, if so, to what extent the prudential carve-out is a valid defence to the claim.
2. The Parties undertake to act in good faith. Each Party shall present its position to the Financial Services Committee within 60 days of the referral to the Financial Services Committee.
3. Where the non-disputing Party notifies the Financial Services Committee within the 60 day period in paragraph (2) that it has launched its internal determination process on this matter, the timeframe in paragraph (2) is suspended until that Party notifies the Financial Services Committee of its position. A suspension beyond 6 months will be considered as a breach of the good faith undertaking.
4. Where the Respondent does not provide its position to the Financial Services Committee within the time period referred to in paragraph (2), the suspension of the time periods or proceedings referred to in paragraph 4 of Article 20 shall no longer apply and the investor may proceed with its claim.
5. Where the Financial Services Committee is unable to agree on a joint determination within 60 days in relation to a specific investor-to-state dispute concerning a prudential measure, the Financial Services Committee shall refer the matter to the CETA Trade Committee³⁸. This period of 60 days shall commence from the moment the Financial Services Committee receives the positions of the Parties pursuant to paragraph (2).
6. The joint determination of the Financial Services Committee or the CETA Trade Committee shall be binding on the Tribunal only in the case in question. The joint determination shall

³⁸ Each Party shall ensure that its representation in the CETA Trade Commission for this purpose includes financial services authorities

not constitute a binding precedent for the Parties with respect to definition and application of the prudential carve-out or other terms of this Agreement.

7. Unless the CETA Trade Committee otherwise decides, should the CETA Trade Committee not reach an agreement within 3 months of a referral of the matter by the Financial Services Committee pursuant to paragraph (5), each Party shall make its position available to the Tribunal arbitrating that particular dispute. The Tribunal shall take account of this record in reaching a decision.³⁹

High level principles:

The Parties agree that the application of Article 15.1 by the Parties and by tribunals should be guided by the following principles, which are not exhaustive:

1. Each Party may determine its own appropriate level of prudential regulation. Specifically a Party may establish and enforce measures that provide a higher level of prudential protection than those set out in common international prudential commitments.
2. Relevant considerations in determining whether a measure meets the requirements of Article 15.1 include the extent to which a measure may be required by the urgency of the situation and the information available to the Party at the time when the measure was adopted.
3. Given the highly specialized nature of prudential regulation, those applying these principles shall defer to the highest degree possible to regulations and practices in the Parties' respective jurisdictions and to the decisions and factual determinations, including risk assessments, made by financial regulatory authorities.
4. (a) Except as provided in paragraph (b), a measure is deemed to meet the requirements of Article 15.1 where it:
 - (i) has a prudential objective; and
 - (ii) is not so severe in light of its purpose that it is manifestly disproportionate to the attainment of its objective.(b) A measure that otherwise meets the requirements of paragraph (a) does not meet the requirements of Article 15.1 where it is a disguised restriction on foreign investment or an arbitrary or unjustifiable discrimination between investors in like situations.
5. Provided that a measure is not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between investors in like situations, or a disguised restriction on foreign investment, that measure is deemed to meet the requirements of Article 15.1 where that measure is:
 - In line with our common international prudential commitments; or

- In pursuance of the resolution of a financial institution that is no longer viable or likely to be no longer viable;
- In pursuance of the recovery of a financial institution or the management of a financial institution under stress; or
- In pursuance of the preservation or the restoration of financial stability, in response to a system-wide financial crisis.

Periodic Review

The Financial Services Committee may, by agreement of both Parties, amend this Understanding at any time. The Financial Services Committee should review this Understanding at least every two years.

In this context, the Financial Services Committee may develop a common understanding on the application of Article 15.1 (Prudential Carve-out), on the basis of the dialogue and discussions held in the Committee in relation to specific disputes and mindful of common international prudential commitments.

Article X.12: Forbearance

The Parties recognize the importance of a competitive market to achieve legitimate public policy objectives for telecommunications services. To this end, and to the extent provided in its domestic law, each Party may refrain from applying a regulation to a telecommunications service when, following analysis of the market, it is determined that effective competition is achieved.

COMPETITION POLICY

Article X-01: Competition Policy

1. The Parties recognize the importance of free and undistorted competition in their trade relations. The Parties acknowledge that anti-competitive business conduct has the potential to distort the proper functioning of markets and undermine the benefits of trade liberalization.
2. Each Party shall take appropriate measures to proscribe anti-competitive business conduct, recognizing that such measures will enhance the fulfilment of the objectives of this Agreement.

4. The measures referred to in paragraph 2 shall be consistent with the principles of transparency, non-discrimination and procedural fairness. Exclusions from the application of competition law shall be transparent. Each Party shall make available to the other Party public information concerning such exclusions provided under its competition laws.
5. In this Article, “anti-competitive business conduct” means anti-competitive agreements, concerted practices or arrangements by competitors; anti-competitive practices by an enterprise that is dominant in a market; and mergers with substantial anti-competitive effects.

Such an agent may include State enterprises, monopolies and enterprises granted special or exclusive rights or privileges; and

Where a supplier that is not included on a multi-use list submits a request for participation in a procurement based on a multi-use list and all required documents, within the time-period provided for in Article X:2, a procuring entity shall examine the request. The procuring entity shall not exclude the supplier from consideration in respect of the procurement on the grounds that the entity has insufficient time to examine the request, unless, in exceptional cases, due to the complexity of the procurement, the entity is not able to complete the examination of the request within the time-period allowed for the submission of tenders.

Annex X-02 and Annex X-03 Entities

12. A procuring entity covered under Annex X-02 or X-03 may use a notice inviting suppliers to apply for inclusion on a multi-use list as a notice of intended procurement, provided that:

Information on Procuring Entity Decisions

14. A procuring entity shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion on a multi-use list of the procuring entity's decision with respect to the request or application.

15. Article IX Technical Specifications and Tender Documentation

Technical Specifications

1. A procuring entity shall not prepare, adopt or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to international trade.

2. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

Where design or descriptive characteristics are used in the technical specifications, a procuring entity should indicate, where appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including words such as "or equivalent" in the tender documentation.

4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as "or equivalent" in the tender documentation.

6. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.

7. A procuring entity shall make available to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:

9. The evaluation criteria set out in the notice of intended procurement or tender documentation may include, among others, price and other cost factors, quality, technical merit, environmental characteristics and terms of delivery.

10. A procuring entity shall promptly:

- (a) make available tender documentation to ensure that interested suppliers have sufficient time to submit responsive tenders;
- (b) provide, on request, the tender documentation to any interested supplier; and
- (c) reply to any reasonable request for relevant information by any interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.

Modifications

11. Where, prior to the award of a contract, a procuring entity modifies the criteria or requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit in writing all such modifications or amended or re-issued notice or tender documentation:

Such time-periods, including any extension of the time-periods, shall be the same for all interested or participating suppliers.

Deadlines

2. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. Where a state of urgency duly substantiated by the procuring entity renders this time-period impracticable, the time-period may be reduced to not less than 10 days.

3. Except as provided for in paragraphs 4, 5, 7 and 8 a procuring entity shall establish that the final date for the submission of tenders shall not be less than 40 days from the date on which:

- (a) in the case of open tendering, the notice of intended procurement is published; or
- (b) in the case of selective tendering, the entity notifies suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

4. A procuring entity may reduce the time-period for tendering established in accordance with paragraph 3 to not less than 10 days where:

- (a) the procuring entity has published a notice of planned procurement as described in Article VI:4 at least 40 days and not more than 12 months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:

- (b) the procuring entity, for contracts of a recurring nature, indicates in an initial notice of intended procurement that subsequent notices will provide time-periods for tendering based on this paragraph; or
- (c) a state of urgency duly substantiated by the procuring entity renders the time-period for tendering established in accordance with paragraph 3 impracticable.

5. A procuring entity may reduce the time-period for tendering established in accordance with paragraph 3 by five days for each one of the following circumstances:

- (a) the notice of intended procurement is published by electronic means;
- (b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and
- (c) the entity accepts tenders by electronic means.

6. The use of paragraph 5, in conjunction with paragraph 4, shall in no case result in the reduction of the time-period for tendering established in accordance with paragraph 3 to less than 10 days from the date on which the notice of intended procurement is published.

7. Notwithstanding any other provision in this Article, where a procuring entity purchases commercial goods or services, or any combination thereof, it may reduce the time-period for tendering established in accordance with paragraph 3 to not less than 13 days, provided that it publishes by electronic means, at the same time, both the notice of intended procurement and the tender documentation. In addition, where the entity accepts tenders for commercial goods or services by electronic means, it may reduce the time-period established in accordance with paragraph 3 to not less than 10 days.

8. Where a procuring entity covered under Annex X-02 or X-03 has selected all or a limited number of qualified suppliers, the time-period for tendering may be fixed by mutual agreement between the procuring entity and the selected suppliers. Article XII Limited Tendering

1. Provided that it does not use this provision for the purpose of avoiding competition among suppliers or in a manner that discriminates against suppliers of the other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles VI through VIII, IX (paragraphs 7 through 11), X, XI, XIII and XIV only under any of the following circumstances:

- (a) where:

- (e) for goods purchased on a commodity market;
- (f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;
- (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership or bankruptcy, but not for routine purchases from regular suppliers; or

1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process, and the confidentiality of tenders.
2. A procuring entity shall not penalize any supplier whose tender is received after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity.
3. Where a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunity to all participating suppliers.

Awarding of Contracts

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be from a supplier that satisfies the conditions for participation.
5. Unless a procuring entity determines that it is not in the public interest to award a contract, the entity shall award the contract to the supplier that the entity has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:
 - (a) the most advantageous tender; or

- (b) a merger of two or more entities listed within an Annex; and
- (c) the separation of an entity listed in an Annex into two or more entities that are all added to the entities listed in the same Annex.

5.3(2.1) Under paragraph 5.3(2) “to the extent provided by its law” means that Parties have flexibility in implementing paragraphs 5.3(2)(a)(i) and (ii).

5.3(3) In implementing paragraphs 5.3(1) and (2), no Party shall be obligated to require that the design of, or the design and selection of parts and components for, a consumer electronics, telecommunications, or computing product provide for a response to any particular technological measure, so long as the product does not otherwise contravene its measures implementing these paragraphs. The intention of this provision is that this Agreement does not require a Party to mandate interoperability in its law, i.e., there is no obligation for the ICT (Information Communication Technology) industry to design devices, products, components, or services to correspond to certain technological protection measures.

5.3(4) In providing adequate legal protection and effective legal remedies pursuant to the provisions of paragraph 5.3(1), a Party may adopt or maintain appropriate limitations or exceptions to measures implementing the provisions of paragraphs 5.3(1) and (2). The obligations set forth in paragraphs 5.3(1) and (2) are without prejudice to the rights, limitations, exceptions, or defences to copyright or related rights infringement under a Party’s law.

Article 5.4 - Protection of Rights Management Information

5.4(1) To protect electronic rights management information,⁴⁹ each Party shall provide adequate legal protection and effective legal remedies against any person knowingly performing without authority any of the following acts knowing, or having reasonable grounds to know, that it will induce, enable, facilitate, or conceal an infringement of any copyright or related rights:

- (a) to remove or alter any electronic rights management information;
- (b) to distribute, import for distribution, broadcast, communicate, or make available to the public copies of works, performances, or phonograms, knowing that electronic rights management information has been removed or altered without authority.

5.4(2) In providing adequate legal protection and effective legal remedies pursuant to the provisions of paragraph 5.4(1), a Party may adopt or maintain appropriate limitations or exceptions to measures implementing the provisions of paragraph 5.4(1). The obligations set forth in paragraph 5.4(1) are without prejudice to the rights, limitations, exceptions, or defences to copyright or related rights infringement under a Party’s law.

⁴⁹ For the purposes of this Article, **rights management information** means:

- (a) information that identifies the work, the performance, or the phonogram; the author of the work, the performer of the performance, or the producer of the phonogram; or the owner of any right in the work, performance, or phonogram;
 - (b) information about the terms and conditions of use of the work, performance, or phonogram; or

Subject to the other paragraphs of this Article, each Party shall provide limitations or exceptions in its domestic legislation regarding the liability of service providers, when acting as intermediaries, for infringements of copyright or related rights that take place on or through communication networks, in relation to the provision or use of their services.
2. The limitations or exceptions referred to in the previous paragraph:
 - a) shall cover at least the following functions:
 - i. hosting of the information at the request of a user of the hosting services;
 - ii. caching carried out through an automated process, when the service provider:
 - a. does not modify the information other than for technical reasons;
 - b. ensures that any directions related to the caching of the information that are specified in a manner widely recognized and used by industry are complied with; and
 - c. does not interfere with the use of technology that is lawful and widely recognized and used by the industry in order to obtain data on the use of the information;
 - iii. mere conduit, which consists of the provision of the means to transmit information provided by a user, or the means of access to a communication network;
 - b) may also cover other functions including:
providing an information location tool, by making reproductions of copyright material in an automated manner, and communicating the reproductions.
3. Eligibility for the limitations or exceptions in this Article may not be conditioned on the service provider monitoring its service, or affirmatively seeking facts indicating infringing activity.
4. Each Party may prescribe in its domestic law, conditions for service providers to qualify for the limitations or exceptions in this Article. Without prejudice to the above each Party may establish appropriate procedures for effective notifications of claimed infringement, and effective counter-notifications by those whose material is removed or disabled through mistake or misidentification.
5. This Article is without prejudice to the availability in a Party' law of other defences, limitations and exceptions to the infringement of copyright or related rights. This Article shall not affect the possibility of a court or administrative authority, in accordance with Parties' legal systems, of requiring the service provider to terminate or prevent an infringement.

Each Party may provide for criminal procedures and penalties to be applied in accordance with its laws and regulations against any person who, without authorisation of the theatre manager or the holder of copyright in a cinematographic work, makes a copy of that work or any part thereof, from a performance of the work in a motion picture exhibition facility open to the public.

Article 9.1 - International Agreements

Article 9.2 –Sui Generis protection for Pharmaceuticals

1. Definitions for the purposes of Article 9.2:

- (a) 'Product' means the active ingredient or combination of active ingredients of a pharmaceutical product;
- (b) 'Basic patent' means a patent which protects a product as such, a process to obtain a product or an application of a product.

2. Each Party shall provide a period of *sui generis* protection in respect of a product that is protected by a basic patent in force at the request of the holder of the patent or his successor in title, provided the following conditions have been met:

- a) an authorization has been granted to place the product on the market of that Party as a pharmaceutical product;
- b) the product has not already been the subject of a period of *sui generis* protection;
- c) the authorisation referred to in paragraph (a) is the first authorisation to place the product on the market of that Party as a pharmaceutical product.

3. Each Party may:

- a) provide a period of *sui generis* protection only if the first application for authorisation to place the product on their market as a pharmaceutical product is submitted within a reasonable time limit prescribed by that Party; and
- b) prescribe a time limit of no less than 60 days from the date on which the first marketing authorisation was granted for the submission of the request for the period of *sui generis* protection. However, where the first marketing authorisation is granted before the patent is granted, the Parties will provide at least 60 days from the grant during which the application for a further period of protection under this Article may be submitted.

4. In the case where a product is protected by one patent, the period of *sui generis* protection shall take effect at the end of the lawful term of the patent.

In the case where a product is protected by more than one patent, a Party may provide for only a single period of *sui generis* protection that takes effect at the end of the lawful term of a single patent

the period of *sui generis* protection;

b) in the case where the patents are not owned by the same person and this gives rise to conflicting requests for the *sui generis* protection, selected by agreement between the patent holders.

Each Party shall provide that the period of *sui generis* protection shall be for a period equal to the period which elapsed between the date on which the application for a patent was filed and the date of the first authorisation to place the product on the market of that Party as a pharmaceutical product reduced by a period of five years.

Notwithstanding the previous paragraph, the duration of the *sui generis* protection may not exceed a period of two to five years, to be established by each Party.⁵¹

Each Party may provide that the period of *sui generis* protection shall lapse:

- a) if the *sui generis* protection is surrendered by the beneficiary;
- b) if prescribed administrative fees are not paid.

Each Party may reduce the period of protection commensurate with any unjustified delays resulting from the inactions of the applicant after applying for the market authorisation, when the holder of the patent is the applicant for market authorisation or an entity related to it.

5. Within the limits of the protection conferred by the patent, the *sui generis* protection shall extend only to the pharmaceutical product covered by the authorisation to place that product on the market and for any use of that product as a pharmaceutical product that has been authorized before the expiry of the *sui generis* protection. Subject to the preceding sentence, the *sui generis* protection shall confer the same rights as conferred by the patent and shall be subject to the same limitations and obligations.

Notwithstanding paragraphs 1 through 4 of this Article, each Party may also limit the scope of the protection by providing exceptions for making, using, offering for sale, selling or importing of products for the purpose of export during the period of protection.

6. Each Party may revoke the protection on grounds relating to invalidity of the applicable patent, including if the basic applicable patent has lapsed before its lawful term expires or is revoked or limited to the extent that the product for which the protection was granted would no longer be protected by the claims of the basic patent, or on grounds relating to withdrawal of the appropriate authorisation or authorisations to place the product on their respective market, or if the protection was granted contrary to the provisions of paragraph 2.

Measures for Preserving Evidence

1. The Parties shall ensure that, even before the commencement of proceedings on the merits of the case, the judicial authorities may, on application by an entity who has presented reasonably available evidence to support its claims that its intellectual property right has been infringed or is about to be infringed, order prompt and effective provisional measures to preserve relevant evidence in respect of the alleged infringement, subject to the protection of confidential information.
2. Each Party may provide that such measures include the detailed description, with or without the taking of samples, or the physical seizure of the alleged infringing goods, and, in appropriate cases, the materials and implements used in the production and/or distribution of these goods and the documents relating thereto. The judicial authorities shall have the authority to take those measures, if necessary without the other party being heard, in particular where any delay is likely to cause irreparable harm to the right holder or where there is a demonstrable risk of evidence being destroyed.

Article 17
Right of Information

Without prejudice to its law governing privilege, the protection of confidentiality of information sources or the processing of personal data, each Party shall provide that, in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities shall have the authority, upon a justified request of the right holder, to order the infringer or the alleged infringer, to provide to the right holder or to the judicial authorities, at least for the purpose of collecting evidence, relevant information as provided for in its applicable laws and regulations that the infringer or alleged infringer possesses or controls. Such information may include information regarding any person involved in any aspect of the infringement or alleged infringement and regarding the means of production or the channels of distribution of the infringing or allegedly infringing goods or services, including the identification of third persons alleged to be involved in the production and distribution of such goods or services and of their channels of distribution.

1. Each Party shall provide that its judicial authorities shall have the authority to order prompt and effective provisional and precautionary measures, including an interlocutory injunction, against a party, or where appropriate, against a third party over whom the relevant judicial authority exercises jurisdiction, to prevent an infringement of an intellectual property right from occurring, and in particular, to prevent infringing goods from entering the channels of commerce.
2. Each Party shall provide that its judicial authorities have the authority to order the seizure or other taking into custody of the goods suspected of infringing an intellectual property right so as to prevent their entry into or movement within the channels of commerce.
3. Each Party shall provide that, in the case of an alleged infringement of an intellectual property right committed on a commercial scale, the judicial authorities may order, in accordance with domestic law, the precautionary seizure of property of the alleged infringer, including the blocking of its bank accounts and other assets. To that end, the judicial authorities may order the communication of relevant bank, financial or commercial documents, or access to other relevant information, as appropriate.

Article 19
Other remedies

1. The Parties shall ensure that the judicial authorities may order, at the request of the applicant and without prejudice to any damages due to the right holder by reason of the infringement, and without compensation of any sort, the definitive removal from the channels of commerce, or the destruction, of goods that they have found to be infringing an intellectual property right. The Parties shall ensure that the judicial authorities may order, if appropriate, destruction of materials and implements predominantly used in the creation or manufacture of those goods. In considering a request for such remedies, the need for proportionality between the seriousness of the infringement and the remedies ordered, as well as the interests of third parties, shall be taken into account.
2. The Parties shall ensure that the judicial authorities have the authority to order that those remedies shall be carried out at the expense of the infringer, unless particular reasons are invoked for not doing so.

Article 20
Injunctions

1. Each Party shall provide that, in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities shall have the authority to issue an order against a party to desist from an infringement, and *inter alia*, an order to that party, or, where appropriate, to a third party over whom the relevant judicial authority exercises jurisdiction, to prevent infringing goods from entering into the channels of commerce.

2. Notwithstanding the other provisions of this Section, a Party may limit the remedies available against use by government, or by third parties authorized by government, without the use of authorization of the right holders to the payment of remuneration provided that the Party complies with the provisions of Part II of the TRIPS Agreement specifically addressing such use. In other cases, the remedies under this Section shall apply or, where these remedies are inconsistent with a Party's law, declaratory judgments and adequate compensation shall be available.

**Article 21
Damages**

1. Each Party shall provide that:
- (a) in civil judicial proceedings, its judicial authorities shall have the authority to order the infringer who knowingly or with reasonable grounds to know, engaged in infringing activity of intellectual property rights to pay the right holder:
 - (i) damages adequate to compensate for the injury the right holder has suffered as a result of the infringement; or
 - (ii) the profits of the infringer that are attributable to the infringement, which may be presumed to be the amount of damages referred to in paragraph (i);
 - (b) in determining the amount of damages for infringements of intellectual property rights, its judicial authorities may consider, *inter alia*, any legitimate measure of value that may be submitted by the right holder, including lost profits.
2. As an alternative to the previous paragraph, a Party's law may provide for payment of remuneration, such as a royalty or fee, to compensate a right holder for the unauthorized use of its intellectual property.

**Article 22
Legal Costs**

Each Party shall provide that its judicial authorities, where appropriate, shall have the authority to order, at the conclusion of civil judicial proceedings concerning the enforcement of intellectual property rights, that the prevailing party be awarded payment by the losing party of legal costs and other expenses, as provided for under that Party's law.

**Article 23
Presumption of Authorship or Ownership**

- For the purposes of civil proceedings involving copyright or related rights,
- (a) for the author of a literary or artistic work, in the absence of proof to the contrary, to be regarded as such, and consequently to be entitled to institute infringement proceedings, it shall be sufficient for

his/her name to appear on the work in the usual manner. Proof to the contrary may include registration;
(b) the provisions under (a) shall apply mutatis mutandis to the holders of rights related to copyright with regard to their protected subject matter.

Section 4
Border Measures

Article 24
Border Measures⁵³

Article 24.1 – Scope of Border Measures

1. The references to the infringement of intellectual property rights in this Article shall be interpreted as referring to instances of counterfeit trademark goods, pirated copyright goods or counterfeit geographical indication goods. For the purposes of this paragraph, the following definitions shall apply:

“pirated copyright goods” means any goods which are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and which are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the Party in which the border measure procedures are applied;

“counterfeit trademark goods” means any goods, including packaging, bearing, without authorization, a trademark which is identical to the trademark validly registered in respect of such goods, or which cannot be distinguished in its essential aspects from such a trademark, and which infringes the rights of the owner of the trademark in question under the law of the Party in which the border measures procedures are applied.

“counterfeit geographical indication goods” means any goods under Article 7.2 falling within one of the product classes listed in Annex III, including packaging, bearing without authorization, a geographical indication which is identical to the geographical indication validly registered or otherwise protected in respect of such goods and which infringes the rights of the owner or right holder of the geographical indication in question under the law of the Party in which the border measures procedures are applied;

2. Each Party shall adopt or maintain procedures with respect to import and export shipments under which a right holder may request its competent authorities to suspend the release of, or detain goods suspected of infringing an intellectual property right.

3. Each Party shall adopt or maintain procedures with respect to import and export shipments under which its competent authorities may act on their own initiative to temporarily suspend the release of, or detain goods suspected of infringing an intellectual property right to provide a right holder an

Kommentiert [MS14]: Legal review should clean up use of the word “Article” as it is used to describe both the entire section on border measures as well as the 7 specific sub-sections. For example, it should be clear that the scope of border measures set out in 24.1 applies to the entire set of border measures provisions.

Kommentiert [AG15]: Legal teams to revisit during legal scrub the need for a comma here between “of” and “or” as well as whether it might be sensible to add the words “in order” between “right” and “to provide”.

⁵³ It is understood that there shall be no obligation to apply the procedures set forth in this Section to goods put on the market in another country by or with the consent of the right holder.

opportunity to formally request assistance under paragraph 2.

4. Either Party may enter into an arrangement with one or more third parties to establish common security customs clearance procedures. Goods cleared pursuant to the terms of the common customs procedures of such an arrangement shall be deemed to be in compliance with paragraphs 2 and 3, provided the Party concerned retains the legal authority to comply with these paragraphs.

5. Each Party may adopt or maintain the procedures referred to in paragraphs 2 and 3 with respect to transshipments and shipments in customs transit.

6. Each Party may exclude from the application of the above provisions small quantities of goods of a non-commercial nature contained in travellers' personal luggage or small quantities of goods of a non-commercial nature sent in small consignments.

7. For the purposes of this Article:

- (a) "Import shipments" means shipments of goods brought into the territory of a Party from a place outside that territory, while those goods remain under customs control. This definition includes goods brought into the territory to a free zone or customs warehouse, but excludes shipments in customs transit and transshipments.
- (b) "Shipments in customs transit" means shipments of goods that enter the territory of a Party from a place outside that territory and are authorized by customs authorities for transport under continuous customs control from an office of entry to an office of exit, for the purpose of exiting the territory. Shipments in customs transit that are subsequently approved for removal from customs control without exiting the territory are considered to be import shipments.
- (c) "Transshipments" means shipments of goods that are transferred under customs control from the importing means of transport to the exporting means of transport within the area of one Customs office which is the office of both importation and exportation.
- (d) "Export shipments" means shipments of goods which are to be taken from the territory of a Party to a place outside that territory, excluding shipments in customs transit and transshipments.

Article 24.2 – Application by the Right Holder

1. Each Party shall provide that its competent authorities require a right holder that requests the procedures described in Article 24.1 to provide adequate evidence to satisfy the competent authorities that, under the law of the Party providing the procedures, there is prima facie an infringement of the right holder's intellectual property right, and to supply sufficient information that may reasonably be expected to be within the right holder's knowledge to make the suspect goods reasonably recognisable by the competent authorities. The requirement to provide sufficient information shall not unreasonably deter recourse to the procedures described in Article 24.1.

LIMITED

2. Each Party shall provide for applications to suspend the release of, or to detain goods⁵⁴ suspected of infringing an IPR listed Article 24.1, under customs control in its territory. The competent authorities may provide for such applications to apply to multiple shipments. Each Party may provide that, at the request of the right holder, the application to suspend the release of, or to detain suspect goods may apply to selected points of entry and exit under customs control.

3. Each Party shall ensure that its competent authorities inform the applicant within a reasonable period whether they have accepted the application. Where its competent authorities have accepted the application, they shall also inform the applicant of the period of validity of the application.

4. A Party may provide that, where the applicant has abused the procedures described in Article 24.1, or where there is due cause, its competent authorities have the authority to deny, suspend, or void an application.

Article 24.3 – Provision of Information from the Right Holder

Each Party shall permit its competent authorities to request a right holder to supply relevant information that may reasonably be expected to be within the right holder's knowledge to assist the competent authorities in taking the border measures referred to in this Article. Each Party may also allow a right holder to supply such information to its competent authorities.

Article 24.4 – Security or Equivalent Assurance

Each Party shall provide that its competent authorities have the authority to require a right holder that requests the procedures described in Article 24.1 to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Each Party shall provide that such security or equivalent assurance shall not unreasonably deter recourse to these procedures.

A Party may provide that such security may be in the form of a bond conditioned to hold the defendant harmless from any loss or damage resulting from any suspension of the release of, or detention of, the goods in the event the competent authorities determine that the goods are not infringing. A Party may, only in exceptional circumstances or pursuant to a judicial order, permit the defendant to obtain possession of suspect goods by posting a bond or other security.

Article 24.5 – Determination as to Infringement

Each Party shall adopt or maintain procedures by which its competent authorities may determine, within

⁵⁴ The requirement to provide for such applications is subject to the obligations to provide procedures referred to in subparagraphs 24.1(2) and 24.1(3).

a reasonable period after the initiation of the procedures described in Article 24.1, whether the suspect goods infringe an intellectual property right.

Article 24.6 – Remedies

1. Each Party shall provide that its competent authorities have the authority to order the destruction of goods following a determination referred to in Article 24.5 that the goods are infringing. In cases where such goods are not destroyed, each Party shall ensure that, except in exceptional circumstances, such goods are disposed of outside the channels of commerce in such a manner as to avoid any harm to the right holder.

2. In regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient, other than in exceptional cases, to permit release of the goods into the channels of commerce.

3. Each Party may provide that its competent authorities have the authority to impose administrative penalties following a determination referred to in Article 24.5 that the goods are infringing.

Article 24.7 – Specific cooperation in the area of border measures

1. The Parties agree to cooperate with each other with a view to eliminating international trade in goods infringing intellectual property rights. For this purpose, they shall establish contact points in their administrations and be ready to exchange information on trade in infringing goods. They shall, in particular, promote the exchange of information and cooperation between customs authorities with regard to trade in goods infringing intellectual property rights.

2. Such cooperation may include exchanges of information regarding mechanisms for receiving information from rights holders, best practices, and experiences with risk management strategies, as well as information to aid in the identification of shipments suspected of containing infringing goods.

3. Cooperation under this Article 24 shall be conducted consistent with relevant international agreements. The Committee referred to in Article [X] 'The Joint Customs Cooperation Committee' in Chapter [X] 'Customs and Trade Facilitation' will set the priorities and provide for the adequate procedures for cooperation under this Article 24 between the competent authorities.

23. SUSTAINABLE DEVELOPMENT

CHAPTER XX: TRADE AND SUSTAINABLE DEVELOPMENT

Article XX.1: Context and objectives

1. Recalling the Rio Declaration on Environment and Development of 1992, the Agenda 21 on Environment and Development, the Johannesburg Declaration and Plan of Implementation of 2002 on Sustainable Development, the 2006 Ministerial declaration of the UN Economic and Social Council on Full Employment and Decent Work, and the 2008 ILO Declaration on Social Justice for a Fair Globalisation, the Parties recognise that economic development, social development and environmental protection are interdependent and mutually reinforcing components of sustainable development, and they reaffirm their commitment to promoting the development of international trade in such a way as to contribute to the objective of sustainable development, for the welfare of present and future generations.
2. The Parties underline the benefit of considering trade related labour and environmental issues as part of a global approach to trade and sustainable development. Accordingly, the Parties agree that the rights and obligations under Chapters X+1 and X+2⁵⁶ are to be considered in the context of this Agreement.
3. In this regard, through the implementation of Chapters X+1 and X+2⁵⁷, the Parties aim to:
 - a. promote sustainable development through the enhanced coordination and integration of their respective labour, environmental and trade policies and measures;

CHAPTER X+1: TRADE AND LABOUR

Article 1: Context and objectives

1. The Parties recognise the value of international co-operation and agreements on employment and labour affairs as a response of the international community to economic, employment and social challenges and opportunities resulting from globalisation. They recognize the contribution that international trade could make to full and productive employment and decent work for all and commit to consulting and co-operating as appropriate on trade-related labour and employment issues of mutual interest.

2. The Parties recognise the beneficial role that decent work, encompassing core labour standards, and high levels of labour protection, coupled with effective enforcement, can have on economic efficiency, innovation and productivity, including export performance, and they highlight the value of greater policy coherence in those areas. In this context, the Parties recognize the importance of social dialogue on labour matters among workers and employers, and their respective organizations, and governments, and commit to promotion of such dialogue in their territories.

26. REGULATORY COOPERATION

REGULATORY COOPERATION

Article X.1: Scope

This Chapter applies to the development, review and methodological aspects of regulatory measures of the Parties' regulatory authorities that are covered by, *inter alia*, the *TBT Agreement*, the *SPS Agreement*, the *GATT 1994*, the *GATS*, and Chapters X (TBT); X (SPS); X (CBTS); X (Environment); X (SD) and X (Labour); of this Agreement.

Article X.2: Principles

3. The Parties recognise the value of regulatory cooperation with their relevant trading partners both bilaterally and multilaterally. The Parties will, whenever practicable and mutually beneficial, approach regulatory cooperation in a way that is open to participation by other international trading partners.
4. Without limiting the ability of each Party to carry out its regulatory, legislative and policy activities, the Parties commit themselves to further developing their regulatory cooperation in light of their mutual interest in order to: (a) prevent and eliminate unnecessary barriers to trade and investment; (b) enhance the climate for competitiveness and innovation, including through pursuing regulatory compatibility, recognition of equivalence, and convergence; and (c) promote transparent, efficient and effective regulatory processes that better support public policy objectives and fulfil the mandates of regulatory bodies, including through the promotion of information exchange and enhanced use of best practices.
5. The provisions of this Chapter replace the Government of Canada – European Commission Framework on Regulatory Cooperation and Transparency and shall govern the activities previously undertaken in the context of that Framework.
6. The Parties may undertake regulatory cooperation activities, on a voluntary basis. For greater certainty, neither Party is obliged to enter into particular regulatory cooperation activities, and either Party may refuse to cooperate or may withdraw from cooperation. However, if a Party refuses to initiate regulatory cooperation or withdraws from such cooperation, it should be prepared to explain the reasons for its decision to the other Party.

The Parties recognize that a conformity assessment body should seek accreditation from an accreditation body that is in the territory in which the conformity assessment body is established, provided that that accreditation body has been recognized pursuant either to Article 12 (Recognition of Accreditation Bodies) or to Article 15 (Recognition of Accreditation Bodies in the Areas of Telecommunications and Electromagnetic Compatibility) as able to grant the specific accreditation sought by the conformity assessment body. If there are no accreditation bodies in the territory of a Party that are recognized pursuant either to Article 12 (Recognition of Accreditation Bodies) or to Article 15 (Recognition of Accreditation Bodies in the Areas of Telecommunications and Electromagnetic Compatibility) as able to grant a specific accreditation sought by a conformity assessment body established in the territory of that Party, then:

- (a) Each Party shall take such reasonable measures as may be available to it to ensure that accreditation bodies in its territory accredit conformity assessment bodies established in the territory of the other Party under conditions no less favourable than those applied to conformity assessment bodies established in its territory;
- (b) A Party may not take measures which limit the ability of accreditation bodies in its territory to accredit, or discourage such accreditation bodies from accrediting, conformity assessment bodies established in the territory of the other Party, on conditions no less favourable than those applied for the accreditation of conformity assessment bodies established in the recognizing Party's territory;
- (c) A Party shall not take measures requiring or encouraging accreditation bodies in its territory to apply less favourable conditions for the accreditation of conformity assessment bodies in the territory of the other Party, than those applied for the accreditation of conformity assessment bodies in its territory.

And,

- (b) Either:

- (i) it is accredited, by an accreditation body appointed by a Member State of the European Union, as competent to assess conformity with the European Union technical regulations for which it is being designated;

Or,

- (ii) it is accredited, by an accreditation body established in Canada that has been recognised pursuant either to Article 12 (Recognition of Accreditation Bodies of the Other Party) or to Article 15 (Recognition of Accreditation Bodies in the Areas of Telecommunications and Electromagnetic Compatibility), as competent to assess conformity with the European Union technical regulations for which it is being designated.

3. The Parties shall deem the applicable requirements of Article R17 of Annex I of *Decision 768/2008/EC* to have been met where the conformity assessment body has been accredited pursuant to either procedure described in subparagraph 2(b) and the accreditation body requires as a condition for granting the accreditation that the conformity assessment body meets requirements equivalent to the applicable requirements of Article R17 of Annex I of *Decision 768/2008/EC* or the corresponding requirements in successor instruments.

4. Should the European Union consider revising the requirements set out in Article R17 of Annex I of *Decision 768/2008/EC*, it shall duly consult Canada at the earliest stage of and throughout the review process with a view to ensuring that conformity assessment bodies in the territory of Canada could continue to meet any revised requirements on no less favourable terms than conformity assessment bodies in the territory of the European Union.

- (a) the Party which designated the conformity assessment body failed, following a notification by the other Party of the non-conformity with applicable technical regulations of a product that had been assessed as being in conformity with such technical regulations by that conformity assessment body, to take the actions required by paragraph 3 of Article 11 (Market Surveillance, Enforcement and Safeguards);

Or,

- (b) the Party has reasons to believe that the results of conformity assessment activities performed by that conformity assessment body do not provide sufficient assurances that the products assessed by it as being in conformity with applicable technical regulations are in fact in conformity with these technical regulations.

2. A Party which challenges the competence of a recognized conformity assessment body under this Protocol shall immediately notify the Party which designated the conformity assessment body of the challenge, and of the reasons for the challenge.

3. A Party which:

4. The Parties shall cooperate and make reasonable efforts to resolve the challenge promptly.

5. Without prejudice to paragraph 3, the recognizing Party may cease to recognize the conformity assessment body whose competence has been challenged if:

recognized conformity assessment bodies in its territory. Results shall be accepted regardless of the nationality and location of the supplier or manufacturer, or of the country of origin of the product for which the conformity assessment activities were performed.

2. Where a Party has ceased to recognize a conformity assessment body established on the territory of the other Party, it may cease to accept the results of conformity assessment activities performed by such a conformity assessment body from the date when it ceased to recognize that conformity assessment body. Unless the Party has reasons to believe that the conformity assessment body established on the territory of the other Party was not competent to assess conformity of products with the technical regulations of the Party prior to the date when the Party ceased to recognize that conformity assessment body, the Party shall continue to accept the results of conformity assessment activities performed by such a conformity assessment body prior to the date when the Party ceased to recognize the conformity assessment body, even though the products may have been placed on the market of the Party after that date.

The Parties shall co-operate as necessary in the conduct of such activities.

2. A Party may take measures with respect to a product the placing or use of which on the market may compromise the fulfillment of a legitimate objective, provided that those measures are consistent with the provisions of this Agreement. These measures could include withdrawing such a product from the market, prohibiting its placement on the market or restricting its movement. A Party that takes such a measure shall promptly inform the other Party and provide, upon request of that other Party, its reasons for taking the measure.

3. A Party shall, upon receipt of a written complaint by the other Party, supported by evidence, that products assessed by a conformity assessment body it designated do not comply with applicable technical regulations, promptly seek additional information from the designated conformity assessment body, its accreditation body and relevant operators where necessary, investigate the complaint and provide a written reply to the complaint. A Party may take these actions through an accreditation body.

Article 12

Recognition of Accreditation Bodies

1. A Party ("the recognizing Party") may, in accordance with the procedure described under paragraphs 2 and 3, recognise an accreditation body established in the territory of the other Party ("the nominating Party") as competent to accredit conformity assessment bodies as, themselves, competent to assess conformity with the relevant technical regulations of the recognizing Party.

conditions no less favourable than those applied for the recognition of accreditation bodies established in its territory.

5. The recognizing Party shall respond within 60 days to a request made under the terms of paragraph 2, stating either,

(a) that it recognises the nominating Party's accreditation body as competent to accredit conformity assessment bodies for the scope proposed;

Or,

(d) that it does not recognize the nominated accreditation body as competent to accredit conformity assessment bodies for the scope proposed. Such a statement shall be justified in an objective and reasoned manner, and shall state explicitly the conditions under which recognition would be granted.

6. Each Party shall publish the names of the accreditation bodies of the other Party that it recognizes, and, for each such accreditation body that it recognizes, the scope of the technical regulations for which it recognizes that accreditation body.

The recognizing Party shall immediately notify the nominating Party of the challenge and shall justify its reasons in an objective and reasoned manner.

2. The Parties shall cooperate and make reasonable efforts to resolve the challenge promptly. If a cooperation arrangement between the European and Canadian accreditation systems or bodies has been concluded pursuant to paragraph 3 of Article 12 (Recognition of Accreditation Bodies), then the Parties shall ensure that the European and Canadian accreditation systems or bodies seek to resolve the challenge on behalf of the Parties.

3. The recognizing Party may cease to recognize the nominated accreditation body whose competence has been challenged and any conformity assessment bodies recognized on the basis that they were accredited solely by that accreditation body if:

5. For greater certainty, the fact that a taxation measure constitutes a significant amendment to an existing taxation measure, takes immediate effect as of its announcement, clarifies the intended application of an existing taxation measure, or has an unexpected impact on an investor or covered investment, does not, in and of itself, constitute a violation of Article X.9 (Treatment of Investors and of Covered Investments).

DISPUTE SETTLEMENT

SECTION 1

GENERAL PROVISIONS

ARTICLE 14.1: COOPERATION

The Parties shall at all times endeavour to agree on the interpretation and application of this Agreement, and shall make every attempt through cooperation and consultations to arrive at a mutually satisfactory resolution of any matter that might affect its operation.

ARTICLE 14.2: SCOPE

1. Except as otherwise provided in this Agreement, this Chapter applies to any dispute concerning the interpretation or application of the provisions of this Agreement.
2. Proposed measures may be the subject of consultations under Article 14.4. but not mediation under Article 14.5 or the dispute settlement procedures under Section 3 of this Chapter.

ARTICLE 14.3: CHOICE OF FORUM

1. Recourse to the dispute settlement provisions of this Chapter shall be without prejudice to any action in the WTO framework, including dispute settlement action.
2. Notwithstanding paragraph 1, a Party shall not seek redress for the breach of an obligation which is equivalent in substance under the [CETA] and under the WTO Agreement in the two fora. In such case, once a dispute settlement proceeding has been initiated, the Party shall not bring a claim seeking redress for the breach of the substantially equivalent obligation under the other agreement to the other forum, unless the forum selected fails, for procedural or jurisdictional reasons other than termination under paragraph XX (b) of Annex I, to make findings on that claim.
3. For the purposes of paragraph 2:

Kommentiert [TS-19]: Under the WTO Agreement?

Kommentiert [AL20]: Agreed under the package with the deletion of paragraph 14.18.

Kommentiert [TS-21]: Can agree to drop in exchange for the EU dropping para. 14.18.

Kommentiert [TS-22]: There may still be some value in retaining the first sentence to deal with the situation where the WTO and the CETA disputes are not about a "breach of the substantially equivalent obligation" and we don't want both to proceed at the same time. However, I am happy to discuss further.

 - (b) dispute settlement proceedings under this Chapter are deemed to be initiated by a Party's request for the establishment of an arbitration panel under Article 14.4.1.
4. Nothing in this Agreement shall preclude a Party from implementing the suspension of obligations authorised by the DSB. A Party may not invoke the WTO Agreement to preclude the other Party from suspending obligations under this Chapter.

SECTION 2 CONSULTATIONS AND MEDIATION

ARTICLE 14.4: CONSULTATIONS

1. A Party may request in writing consultations with the other Party regarding any matter referred to in Article 14.2.

5. The date of establishment of the arbitration panel shall be the date on which the last of the three arbitrators is selected.
6. Should the list provided for in Article 14.8 not be established or not contain sufficient names at the time a request is made pursuant to paragraph 3 the three arbitrators shall be drawn by lot from the individuals who have been proposed by one or both of the Parties in accordance with paragraph 1 of Article 14.8 [list of arbitrators].

2. (a) Before suspending obligations, the complaining Party shall notify the responding Party and the [institutional body] of its intention to do so, including in the notification the level of obligations it intends to suspend.

(b) [Except as otherwise provided in this Agreement,] The suspension of obligations may concern any provision referred to in Article 14.2 and shall be limited at a level equivalent to the nullification or impairment caused by the violation.

(c) If at the expiry of the reasonable period of time the measure taken to comply does not exist or does not comply with the arbitration panel ruling, the level of the nullification and impairment shall be calculated starting from the date of notification of the arbitration panel report to the Parties.

14. Only arbitrators may take part in the deliberations of the arbitration panel, but the arbitration panel may permit its assistants to be present at its deliberations.
15. The drafting of any ruling shall remain the exclusive responsibility of the arbitration panel and must not be delegated.
16. Findings, determinations and recommendations of the panel under Articles [14.9] and [14.10] should be made by consensus, but if consensus is not possible then by a majority of its members.
17. Panel members may not furnish separate opinions on matters not unanimously agreed.
18. Where a procedural question arises that is not covered by the provisions of [Chapter 14 (Dispute Settlement)] and its annexes, the arbitration panel, after consulting the Parties, may adopt an appropriate procedure that is compatible with those provisions and that ensures equal treatment between the Parties.

21. The panel shall suspend its work:
 - a) at the request of the complaining Party for a period specified in the request but not to exceed 12 consecutive months, and shall resume its work at the request of the complaining Party;

REPLACEMENT

22. If an arbitrator is unable to participate in the proceeding, withdraws, or must be replaced, a replacement shall be selected in accordance with [Article 14.7.3].

24. Where a Party considers that an arbitrator other than the chairperson does not comply with the requirements of the Code of Conduct, the Parties shall consult and, if they so agree, replace the arbitrator and select a replacement following the procedure set out in [Article 14.7.3].

If the Parties fail to agree on the need to replace an arbitrator, any Party may request that such matter be referred to the chairperson of the arbitration panel, whose decision shall be final.

If, pursuant to such a request, the chairperson finds that an arbitrator does not comply with the requirements of the Code of Conduct, she or he shall draw a new arbitrator by lot from the names on the list referred to in [Article 14.8.1] and on which the original arbitrator was included. If the original arbitrator was chosen by the Parties pursuant to [Article 14.7] of [Chapter X (Dispute Settlement)], the replacement shall be drawn by lot from the individuals proposed by the complaining Party and by the responding Party under [Article 14.8.1]. The selection of the new arbitrator shall be made within five working days of the date of the submission of the request to the chairperson of the arbitration panel.

25. Where a Party considers that the chairperson of the arbitration panel does not comply with the requirements of the Code of Conduct, the Parties shall consult and, if they so agree, shall dismiss the chairperson and select a replacement following the procedure set out in [Article 14.7.3].

If the Parties fail to agree on the need to replace the chairperson, any Party may request that such matter be referred to the two remaining members of the arbitration panel. The decision by these persons on the need to replace the chairperson shall be final.

If these persons decide that the original chairperson does not comply with the requirements of the Code of Conduct, they shall draw a new chairperson by lot among the remaining names on the list referred to in [Article 14.8.1] to act as chairperson. The

1. Within 10 days after the appointment of the mediator, the Party having invoked the mediation procedure shall present, in writing, a detailed description of the problem to the mediator and to the other Party, in particular of the operation of the measure at issue and its trade effects. Within 20 days after the date of delivery of this submission, the other Party may provide, in writing, its comments to the description of the problem. Either Party may include in its description or comments any information that it deems relevant.

2. The mediator may decide on the most appropriate way of bringing clarity to the measure concerned and its possible trade-related impact. In particular, the mediator may organize meetings between the Parties, consult the Parties jointly or individually, seek the assistance of or consult with relevant experts⁶⁸ and stakeholders and provide any additional support requested by the parties. However, before seeking the assistance of or consulting with relevant experts and stakeholders, the mediator shall consult with the Parties.

3. The mediator may offer advice and propose a solution for the consideration of the Parties which may accept or reject the proposed solution or may agree on a different solution. However, the mediator shall not advise or give comments on the consistency of the measure at issue with this Agreement.

4. The procedure shall take place in the territory of the Party to which the request was addressed, or by mutual agreement in any other location or by any other means.

Mutually agreed solutions shall be made publicly available. However, the version disclosed to the public may not contain any information that a Party has designated as confidential.

On request of the Parties, the mediator shall issue to the parties, in writing, a draft factual report, providing a brief summary of (1) the measure at issue in these procedures; (2) the procedures followed; and (3) any mutually agreed solution reached as the final outcome of these procedures, including possible interim solutions. The mediator shall provide the parties 15 days to comment on the draft report. After considering the comments of the parties submitted within the period, the mediator shall submit, in writing, a final factual report to the parties within 15 days. The factual report shall not include any interpretation of this Agreement.

TRQ Declaration - Meat

Final 1 August 2014

37. Declarations on TRQ Administration

DECLARATION ON TARIFF RATE QUOTA ADMINISTRATION

EU TRQ administration for beef, veal and pork under CETA:

General overall principle that tariff quota administration should be as conducive to trade as possible. More specifically, it must not impair or nullify the market access commitments negotiated by Parties, it must be transparent, predictable, minimize transactional costs for traders, maximize fill rates and aim to avoid potential speculation.

1. Structure of Import Licensing System

A Quarterly sub periods with carryover between periods for unused quantities

- o In each of the four quarters of the marketing year, 25% of the annual TRQ volume will be made available for license applications.
 - o Any quantities remaining available at the end of one quarter will be automatically rolled over into the subsequent period until the end of the marketing year.

B Application period for import licenses

- o Applications for import licenses will be accepted up to 45 calendar days preceding the beginning of each quarter and import licenses shall be issued no less than 30 calendar days before the quarter begins.
- o Should demand for licenses during the application period exceed the quantities available for that quarter, licences will be attributed on a prorata basis.
- o Should the available quantity for any quarter not be fully subscribed during the application period, then the remaining quantity will be made available for eligible applicants to apply for on demand for the rest of that quarter. Import licenses will be issued automatically on demand until the available quantity has been fully subscribed for that period.

C Validity of licenses

- o Import licenses will be valid for 5 months from the date of the beginning of the quarter for which the import license is issued, or the date of issue, whichever is later, and up to the end of the marketing year
 - o Import licenses may be used at any EU customs entry point and for multiple shipments.

2. Eligibility Criteria:

The eligibility criteria/allocation method should result in the quota going to those that are most likely to use it and must not create barriers to imports.

LIMITED

LIMITED

TRQ Declaration - Meat

Final 1 August 2014

- o **For the application period**, eligible applicants would include historical importers of beef, bison and veal for beef imports and beef, bison, veal and pork for pork imports.
- o **In any quarter following the application period when licenses are made available on demand** the eligible applicants criteria will be expanded to include wholesalers and accredited meat processors (establishments approved under EC Reg 853/2004 or equivalent).

3. Securities:

A Securities tied to import licenses applications

- o A security of not more than 95 euro per tonne of beef and 65 euro per tonne of pork will be lodged with the application for a license.

B Transfer of license and corresponding security

- o Unused license shall not be transferred.

C Return of license and corresponding security

- o Unused license quantities may be returned before expiration and up to 4 months prior to the end of the marketing year. Each license holder may return up to 30% of their individual license quantity. When such a quantity is returned, 60% of the corresponding security is released.
- o All returned quantities will be immediately made available to other eligible applicants to apply for on demand for the rest of that quarter, and will be rolled-over to subsequent quarters if not requested.

D Release of Security and release of full security when 95% of imports occur

- o Securities shall be proportionally released each time physical imports have taken place.
- o Once 95% of an importer's individual license quantity is physically imported the full security shall be released.

TRQ Declaration – Cheese

Final 1 August 2014

DECLARATION ON TARIFF RATE QUOTA ADMINISTRATION

CANADIAN TRQ Administration for cheese under CETA

General overall principle that tariff quota administration should be as conducive to trade as possible. More specifically, it must not impair or nullify the market access commitments negotiated by Parties, it must be transparent, predictable, minimize transactional costs for traders, maximize fill rates and aim to avoid potential speculation.

The eligibility criteria/allocation method should result in the quota going to those that are most likely to use it and must not create barriers to imports.

Structure of Import Licensing system

- 1) The annual TRQ access quantity will be allocated each year amongst eligible applicants.
- 2) The TRQ allocation method will allow for new entrants each year. During the implementation period, at least 30% of the TRQ will be available to new entrants every year. After that period, at least 10% of the TRQ access quantity will be available for new entrants.
- 3) The TRQ will be allocated on a calendar year basis. Applications from all interested parties will be received and processed according to the provisions of the Bali Declaration, with a period of four to six weeks to submit applications. Imports will be able to start from the first day of the year.
- 4) In the event that the TRQ is not fully allocated following the application process, available quantities will immediately be offered to eligible applicants on the basis of a prorata of their allocation, or on demand if quantities still remain after the first offer.

Eligibility criteria

- 5) To be eligible, an applicant would at a minimum have to be a Canadian resident and be active in the Canadian cheese sector regularly during the year.
- 6) During the implementation period, a new entrant would be an eligible applicant who is not an allocation holder under Canada's WTO cheese TRQ.
- 7) After that period, a new entrant would be an eligible applicant who is not an allocation holder under Canada's WTO cheese TRQ or did not receive an allocation of the CETA TRQ in the preceding year. A new entrant would be considered as such for a period of three years.
- 8) Once an applicant is no longer considered to be a "new entrant", he would be treated on an equal footing as all other applicants.
- 9) Canada may consider capping the size of the allocations to a specific percentage if it is deemed necessary to foster a competitive, fair, and balanced import environment.

Use of import allocations and Import permits

LIMITED

LIMITED

TRQ Declaration – Cheese

Final 1 August 2014

- 10) Allocations will be valid for a year (from January 1 to December 31).
- 11) To ensure that imports are aligned with domestic market conditions and to minimize barriers to trade, allocation holders will normally be free to use their allocation to import any product covered by the TRQ at any time during the year.
- 12) On the basis of their allocation, importers will submit an import permit request for each shipment of product covered by the TRQ that they wish to bring into Canada. Import permits are normally issued automatically upon request through the Government of Canada electronic permitting system. Under current policies, import permits may be requested up to 30 days before the planned date of entry and are valid for a period of five days before and 25 days from the date of entry. Permits are not transferable. Permits may be amended and/or cancelled.
- 13) Transfers of allocations may be authorized.
- 14) A company that uses less than 95% of its allocation in any one year may be subject to an underutilization penalty in the next year, whereby it will receive an allocation which reflects the actual level of use. Those companies affected will be advised prior to the final allocation of the TRQ.
- 15) Allocation holders will be able to return any unused portion of their allocation up to a given date. Returned quantities are considered used for the purpose of the application of the underutilization penalty. Chronic returns may be penalized.
- 16) Returned quantities will normally be made available to interested allocation holders who have not returned the day after the return deadline. If quantities remain after that, they may be offered to other interested parties.
- 17) The return deadline will be set at a date that is early enough to give sufficient time for use of the returned quantities, while being late enough to allow allocation holders to establish their import needs until the end of the year (potentially around the middle of the quota year).

Declaration on Textiles and Apparel

38. Declaration Concerning Rules of Origin for Textiles and Apparel

Canada-EU Declaration

Concerning Rules of Origin for Textiles and Apparel

[To be appended to the CETA]

Under this agreement, trade in textiles and apparel between the Parties is based on the principle that double transformation confers origin, as reflected in Annex 1 (Product-Specific Rules of Origin).

Nevertheless, for a number of reasons, including the absence of a negative cumulative effect on EU producers, the Parties have agreed, by derogation, to limited, reciprocal origin quotas to the otherwise applicable CETA rules of origin for textiles and apparel. The origin quotas are expressed in terms of volumes classified by product category, and includes considering dyeing as equivalent to printing, for a limited and clearly identified range of product categories. The Parties hereby affirm that the origin quotas, which have an exceptional character, will be applied in strict adherence to the CETA Rules of Origin Protocol.

Declaration on the ICA

Final 1 August 2014

39. Declaration by Canada on the ICA

“Upon implementation of the Canada-European Union Comprehensive Economic and Trade Agreement (“CETA”), Canada will increase the threshold for review under the *Investment Canada Act* (“ICA”) to CAD \$1.5 billion.

Any future amendments to the *ICA* would be subject to the requirement that such amendments could not decrease the conformity of the *ICA* with CETA investment obligations.

As set out in Canada's ICA reservation, the higher threshold will apply to an acquisition of a Canadian enterprise by a EU investor that is not a state enterprise. The determination of whether the acquirer is an EU investor would be based on whether an EU national controls the acquirer in law, or in the absence of a majority ownership, whether EU nationals control the acquirer in fact such as through the ownership of voting interests or the nationality of members of the board of directors. Moreover EU enterprises that are controlled by nationals from Canada's existing FTA partners with which Canada has taken investment commitments would also benefit from the higher threshold.

Canada will be amending its *ICA* to provide for changes necessary to provide for the higher review threshold upon entry into force of the CETA.”

41. Declaration on Wines and Spirits

Declaration on Wine and Spirits:

Canada and the European Union acknowledge the effort and progress that has been made on Wines and Spirits in the context of the CETA negotiations. These efforts have led to mutually agreed solutions on a number of issues of high importance.

Parties agree to discuss through the appropriate mechanisms, without delay and in view to find mutually agreed solutions, any other issue of concern related to Wines and Spirits, and notably the EU's desire to seek the elimination of the differentiation of provincial mark-ups applied on domestic wines and wines bottled in Canada in private wine outlets.

At the end of the fifth year following the entry into force of this agreement, Parties agree to review the progress made on the elimination of the differentiation referred to in the previous paragraph, based on the examination of all developments in the sector, including the consequences of any granting to third parties of a more favourable treatment in the framework of other trade negotiations involving Canada.
